LaBella Associates, D.P.C. (LaBella) has been contracted by TOR Courtney, LLC to perform an All Appropriate Inquiry (AAI) Phase I Environmental Site Assessment (ESA) report for 2624 Highway 55, City of Durham, Durham County, North Carolina, 27713, (Parcel ID: 0739-01-29-2855) hereinafter referred to as the "Site".

The findings of this report are based upon a preliminary assessment of the condition of the Site within the Scope of Work and objective described below as of the date of our site observations and documentation review. This assessment was prepared according to the American Society for Testing and Materials (ASTM) Standard Practice E1527-13 to satisfy the due diligence requirements set for TOR Courtney, LLC. The information contained in this report is considered privileged and confidential and is intended solely for the use of TOR Courtney, LLC as it applies to the Site.

1.0 EXECUTIVE SUMMARY

Based on the results of this assessment, no apparent Recognized Environmental Conditions (RECs), Historical Recognized Environmental Conditions (HRECs), Controlled Recognized Environmental Conditions (CRECs), or de minimis conditions (or business environmental risks) have been identified associated with the Site at this time.

2.0 INTRODUCTION

2.1 Purpose

This investigation was requested to identify, to the extent feasible, Recognized Environmental Conditions in connection with the Site, including the identification of conditions indicative of releases and threatened releases of hazardous substances on, or in the vicinity of the Site. This AAI Phase I ESA report was conducted in general conformance with the Scope and Limitations of ASTM Standard Practice E1527-13.

The performance of ASTM Standard Practice E1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs (defined below) and the potential liability for contamination to be present in connection with the Site recognizing reasonable limits of time and cost. It is also intended to add protection from Comprehensive Environmental Response Compensation and Liability Act (CERCLA) liability for innocent landowner defense, bona fide prospective purchaser, contiguous property owners and grantors who meet certain statutory requirements.

The objective of this AAI Phase I ESA was to determine the following, using our professional judgment, by means of the Scope of Work hereafter described.

1. A general description of the Site.
2. The current and historical usage of the Site and adjoining properties.
3. Whether RECs exist or have the potential to exist at the Site.
4. Whether Site conditions suggest further evaluation based on the presence or probable presence of such RECs.
5. Provide information which may assist the client in evaluating the fair market value of the Site.

The term “Recognized Environmental Condition” is defined by ASTM as the presence or likely presence of any hazardous substances (as currently defined by the CERCLA including pollutants and contaminants) or petroleum products (excluded from the definition of hazardous substance and controlled substances; or the presence of petroleum products as defined by the Resource Conservation and Recovery Act, the Oil Pollution Act of 1990, and the Clean Water Act) in, on, or at a property due to release to the environment, under conditions indicative of a release to the environment, or under conditions that pose a material threat of a future release to the environment.

The term “Historical Recognized Environmental Condition” is defined by ASTM as a past release of any hazardous substance or petroleum product that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

The term “Controlled Recognized Environmental Condition” is defined by ASTM as resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

The term “REC” is not intended to include “de minimis” conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not Recognized Environmental Conditions or Controlled Recognized Environmental Conditions.

The term “data gap” means lack or inability to obtain information required by the standards and practices as defined in ASTM Standard Practice E1527-13 despite good faith efforts by the Environmental Professional and Environmental Analyst.

The term “Environmental Professional” is defined by ASTM as a person who possesses sufficient specific education, training, and experience necessary to exercise professional judgement to develop opinions and conclusions regarding conditions indicative of releases or threatened releases on, at, in or to a property, sufficient to meet the objectives and performance factors defined in the ASTM Standard Practice E1527-13 and §312.20 of 40 CFR §31.

2.2 Scope of Work

The major components of an AAI Phase I ESA report in conformance with ASTM Standard Practice E1527-13 include a visual inspection of the Site and adjoining properties; interviews and review of documents from past and present owners, occupants, managers, representatives and neighbors to the extent necessary; interviews with tribal and local government agency representatives; review of tribal, local and state records relative to the Site; and a review of tribal, local, state and federal standard environmental record sources relative to the Site. The findings and conclusions presented in this report are based on information gathered and limitations set forth in this report.

The Scope of Work performed in this assessment is limited to the areas described as follows:

1. Interview with the Owner, Mr. Richard Vickers to evaluate for potential environmental contamination to be present at the Site. Mr. Vickers has reportedly been associated with the Site for approximately forty years.

2. Interviews with and/or record reviews of each of the following to obtain information directly regarding environmental concerns at or in the immediate vicinity of the Site, which is available directly by file or through general knowledge of the individual being interviewed. Information sources include:
 - a. United States Environmental Protection Agency (USEPA)
 - b. North Carolina Department of Environmental Quality (NCDEQ), Raleigh Region
 - c. Durham County Department of Health (DCDOH)
 - d. City of Durham municipal offices
3. Review of the following federal, state, and local environmental records and databases to aid in the identification of conditions at or related to the Site and property, adjacent to or in the immediate vicinity of the Site, including:
 - a. USEPA National Priority List (NPL) – 1.0 mile
 - b. USEPA Delisted NPL – 0.5 mile
 - c. USEPA Superfund Enterprise Management System (SEMS) and SEMS Archived Sites – 0.5 mile
 - d. USEPA Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) – 0.5 mile
 - e. USEPA CECRCLIS No Further Remedial Action Planned (NFRAP)-0.5 mile
 - f. USEPA Resource Conservation and Recovery Act (RCRA) Corrective Action Sites (CORRACTS) – 1.0 mile
 - g. USEPA RCRA non-CORRACTS Treatment, Storage, and Disposal Facility List (TSD) Facilities – 0.5 mile
 - h. USEPA RCRA Large Quantity Generator (LQG), Small Quantity Generators (SQG), and Conditionally Exempt Small Quantity Generator (CESQG) Listing – Site and adjoining properties
 - i. National Response Center (NRC) Emergency Response and Notification System Listing (ERNS) – Site only
 - j. Federal, state, and local Institutional Controls/Engineering Controls and Land Use Restrictions - Site only
 - k. NCDEQ No Further Action Sites with Land Use Restrictions Monitoring – Site only
 - l. NCDEQ Registry of Inactive Hazardous Sites and Delisted Inactive Hazardous Sites (state equivalent of SEMS Sites) – 1.0 mile
 - m. NCDEQ Registry of Responsible Party Voluntary Action Sites and Brownfields Projects Inventory Sites – 0.5 miles
 - n. NCDEQ Hazardous Substance Disposal Sites (state equivalent of NPL Sites) – 0.5 mile
 - o. NCDEQ Solid Waste Facilities and Landfills – 0.5 mile
 - p. NCDEQ Inventory of Hazardous Substance Waste Disposal Sites – 0.5 mile
 - q. NCDEQ Listing of Spills and Leaking Storage Tanks – 0.5 miles
 - r. NCDEQ Listing of Registered Tanks – Site and adjoining properties
 - s. United States Geological Survey (USGS) Topographic Quadrangle Map Durham West, North Carolina
 - t. United States Department of Agriculture (USDA) Durham County Soil Survey obtained from the Natural Resource Conservation Service (NRCS) website

- u. Abstract of the property
- v. Previous Phase I Environmental Site Assessment prepared by LaBella Associates, dated October 23, 2017
- w. Sanborn Fire Insurance maps
- x. Aerial photographs of the area
- y. Historical topographic maps
- z. Local street directories

Due to the limited timeframe available to conduct this assessment, not all responses have been received from Freedom of Information Law (FOIL) requests that were submitted as a part of this report as of the date of this report submission. Any pertinent information obtained as part of the FOIL requests will be included in a Letter of Addendum (refer to Section 7.0).

4. Site visit on April 17, 2019 by Mr. Rick Rote and Greta Eller of LaBella to photograph the Site and to visually identify areas of concern as defined in the agreement.
5. Completion of LaBella's AAI Phase I ESA Site Reconnaissance Report.
6. Completion of a User Questionnaire completed by Fred Sheckells of Ten Oaks Realty LLC.

2.3 Subsurface Risks/Unanticipated Hazardous Materials

This work for this report has been performed in accordance with generally accepted environmental engineering practices for the applicable region. The conclusion and recommendations of this report are based upon the opinion and judgment of an Environmental Professional (EP), and are dependent upon LaBella's knowledge, information supplied by the present owner and managers of the Site, and data and information solicited from governmental agencies. LaBella makes no other warranty or representation, either expressed or implied, nor is one intended to be included as part of its services, proposals, contracts, or reports.

In addition, LaBella cannot provide guarantees, certifications, or warranties that the property is or is not free of environmental impairment without a subsurface investigation involving drilling, vapor analysis, laboratory soil analysis, groundwater monitoring well installation, and laboratory groundwater analysis. Even with such a program, the data and samples from any given soil boring or monitoring well will indicate conditions that apply only at that particular location, and such conditions may not necessarily apply to the general Site as a whole.

2.4 Significant Assumptions

As a result of the unavailability or lack of receipt of information the following assumption was made in order to complete the Scope of Work in the time frame desired by TOR Courtney, LLC.

- Groundwater flow direction in the vicinity of the Site was estimated based on review of area topographic maps. Determination of site-specific groundwater flow direction typically requires installing at least three groundwater monitoring wells, surveying the wells, and collecting groundwater elevation data (refer to Section 3.2).

As stated in the Agreement, TOR Courtney, LLC acknowledges this assumption and hereby agrees to release and hold LaBella harmless from any liability arising from or relating to any conclusions made or not made based on this assumption.

2.5 Limitations and Exceptions of Assessment

ASTM Standard Practice E1527-13 expressly recognized the fact that no ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. LaBella's work is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with the Site, and its Scope of Work reflects recognition of the reasonable limits of time and cost.

The actual presence of radon, lead-based paint, contaminants in drinking water [e.g., lead, volatile organic compounds (VOCs), "perfluorinated" compounds (PFCs), etc.], mold-related issues, electromagnetic frequencies, asbestos-containing building materials, polychlorinated biphenyl (PCB) caulk, wetlands, cultural and historic resources, ecological resources, and endangered species are not included in the Scope of Work of this assessment. Additionally, regulatory compliance, industrial hygiene, health and safety, indoor air quality and drinking water quality are not included in the Scope of Work of this assessment. Should Client want these services, LaBella can complete them; however, they are not included in the Scope of Work of the Phase I ESA.

The site visit was also limited to visual observations within the perimeter of the Site and other accessible areas only. It should be noted that the fenced area within the cellular phone tower was not accessible. Visual observations were limited at the time of the site visit due to size, and vegetative growth.

2.6 Special Terms and Conditions

TOR Courtney, LLC and LaBella have agreed that the Scope of Work described in Section 2.3, and the Limitations and Exceptions described in Section 2.5 above, are acceptable to you and that to the fullest extent permitted by law, LaBella shall not be liable to you for limiting its investigation to the Scope of Work described. Based on the engagement and Scope of Work agreed upon, our evaluation of the Site is as presented herein.

2.7 User Reliance

TOR Courtney, LLC may rely upon the findings of this report and should be aware of the agreed upon Scope of Work and the limitations associated with this Scope of Work.

3.0 SITE DESCRIPTION

The Site consists of one tax parcel (Parcel ID: 0739-01-29-2855) located to the west of Apex Highway/State Route 55 and to the east of Kirby Street. The Site consists of 73.4 acres of undeveloped land. The central portion of the Site is occupied by a cellular telephone tower located in a fenced enclosure. The Site is currently owned by Vickers Land Company LLC. The adjacent properties include commercial and residential development along with areas of undeveloped land.

3.1 Site Location and Legal Description

The parcel that comprises the Site is outlined in the table below. Property boundaries for the purpose of this assessment were obtained from the Durham County GIS website. A map depicting the tax parcel that comprises the Site is located in the Figures and Photographs Appendix of this report.

Legal Address	Parcel Reference Number	Property Use Code	Acreage
2624 Highway 55	133810	99020 – Forestry	73.4

3.2 Site and Vicinity Characteristics

The Site is located within a suburban area. According to the 7.5-minute West Durham, North Carolina quadrangle USGS Map, the Site consists of sloping land to the southeast. The USGS map indicates that the nearest water body is a tributary of Northeast Creek North Prong, located on the southeastern portion of the Site. Based on interpretation of the USGS topographic map, groundwater flow at the Site appears to be to the south. According to the USDA Durham County Soil Survey, soils at the Site consist mainly of White Shore and Mayodan sandy loam. Soils of the White Shore and Mayodan series are characterized by deep, moderately well drained soils formed in residuum weathered from Triassic materials of the Piedmont uplands. A copy of the soil map is included in Appendix 6.

3.3 Present Ownership and Use

Based on the Durham County Tax Administration website, the Site is currently owned by Vickers Land Company LLC. The Site consists of undeveloped land.

3.4 Site Improvements

3.4.1 Structures and Improvements

The Site is currently undeveloped and therefore unimproved with the exception of the cellular phone tower enclosure.

3.4.2 Roads

The Site is bordered by the following public thoroughfares.

Direction	Public Thoroughfare
East	Highway 55
West	Kirby Street

3.4.3 Current Site Utilities

The Site is currently undeveloped and therefore not connected to site utilities.

3.4.4 Current Use of the Adjoining Properties

The Site is bordered by the following properties.

Direction	Occupant (Address)
North	Peace Missionary (2608-2616 Highway 55)
East beyond Highway 55	Undeveloped (2448-2458 South Dalston Avenue) Warehouse (2532-2534 Whilden Drive) Undeveloped (2543 Whilden Drive)
South	Residential (2604-2720 Wyntercrest Lane) Residential (3119-3127 Courtney Creek Boulevard)
West beyond Kirby Street	Residential (1023-3209 Kirby Street)

Refer to Section 5.2 for additional information regarding the east adjacent property.

4.0 USER PROVIDED INFORMATION

In accordance with the ASTM E1527-13, a “User” is defined as the party seeking to complete an environmental site assessment of the property. If the user is aware of any specialized knowledge or experience that is material to RECs in connection with the Site, it is the user's responsibility to communicate any information based on such specialized knowledge or experience to the Environmental Professional. The User Questionnaire was completed by Fred Sheckells of Ten Oaks Realty LLC of this report. A copy of the User Questionnaire is included in Appendix 7.

4.1 Title Records

According to the ASTM Standard Practice E1527-13, “the user should either engage a title company or title professional to undertake a review of reasonably ascertainable land title records and lien records for environmental liens or activity and use limitations currently recorded against or relating to the property or to negotiate such an engagement of a title company or title professional as an addition to the Scope of Work to be performed by the Environmental Professional.”

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Are land title records available for review?	Land title records were provided to LaBella for review (refer to Section (5.5.4)).

4.2 Environmental Liens or Activity and Use Limitations

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Did a search of <i>recorded land title records</i> identify any environmental liens filed or recorded against the <i>property</i> under federal, tribal, state or local law?	The User did not report environmental liens currently recorded against or relating to the property. In addition, the User did not report any activity or use limitations currently recorded against or relating to the property.
Did a search of <i>recorded land title records</i> identify any AULs, such as <i>engineering controls</i> , land use restrictions or <i>institutional controls</i> that are in place at the <i>property</i> and/or have been filed or recorded against the <i>property</i> under federal, tribal, state or local law?	The User is not aware of any AULs, such as engineering controls, land use restriction, or institutional controls that are in place at the Site and/or have been filed or recorded in a registry under federal, state, or local law.

4.3 Specialized Knowledge

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Does the <i>User</i> of this <i>ESA</i> have any specialized knowledge or experience related to the <i>property</i> or nearby properties? For example, is the <i>User</i> involved in the same line of business as the current or former <i>occupants</i> of the <i>property</i> or an <i>adjoining property</i> so that the <i>User</i> would have specialized knowledge of the chemicals and processes used by this type of business?	The User does not have any specialized knowledge or experiences related to the property or nearby properties.

4.4 Commonly Known or Reasonably Ascertainable Information

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Is the User aware of commonly known or reasonably ascertainable information about the property that would help identify conditions indicative of releases or threatened releases?	The User is unaware of commonly known or reasonably ascertainable information about the property that would help to identify conditions indicative of releases or threatened releases.
Based on the User's knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?	Based on the User's knowledge and experiences related to the Site, the User of this ESA is not aware of obvious indicators that point to the presence or likely presence of contamination at the Site.

4.5 Valuation Reduction for Environmental Issues

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Does the purchase price being paid for the property reasonably reflect the fair market value of the property?	The User did not report a below fair market value.
If the User concluded that there is a difference, has the User considered whether the lower purchase price is because contamination is known or believed to be present at the property?	The User did not report a below fair market value.

4.6 Reason for Performing Phase I ESA

According to ASTM E1527-13, either the User shall make known to the Environmental Professional the reason why the User wants to have the Phase I ESA performed or, if the User does not identify the purpose of the Phase I ESA, the Environmental Professional shall assume the purpose is to qualify for the Landowner Liability Protections under the Brownfields Amendments. The User reported the Phase I ESA was performed as part of a potential purchase.

5.0 STANDARD ENVIRONMENTAL RECORD SOURCES – FEDERAL AND STATE

Federal, state, and local environmental records were reviewed as a part of this assessment, in accordance with ASTM E1527-13 standard. Listings identified within the standard search radius outlined in ASTM E1527-13 are detailed in their respective sections below. Each listing identified was reviewed by LaBella and evaluated. Copies of the regulatory records documentation are included in Appendix 1.

5.1 Site Listings

No regulatory listings were identified associated with the Site.

5.2 Adjacent Property Listings

Adjacent East – 2532 Whilden Drive

One RCRA Non-generator listing (USDEPA Handler ID: NCR000139824) was identified associated with the east adjacent property, addressed as 2532 Whilden Drive. A copy of the listing is included in Appendix 1. The property is currently occupied by Kuehne & Nagel Logistics/medics storage facility. The apparent flow of groundwater at the property appears to be to the west towards Northeast Creek North Prong and the Site. The property was formerly a listed RCRA Large Quantity

Generator (LQG) in 2005. The presence of the property on this listing implies that the property generated more than 1,000 kilograms of hazardous waste per month. This listing does not imply the release of hazardous waste has occurred to the subsurface of the property. According to the listing, the facility handled waste associated with general warehousing and storage and specific types of wastes generated are not listed. This listing does not imply the release of hazardous waste has occurred to the subsurface of the property.

Based on the inactive status of the RCRA listing and the lack of LUSTs/spills associated with the property, there are no apparent RECs related to regulatory records identified associated with the east adjacent property at this time.

5.3 ASTM Standard Regulatory Database Listings

5.3.1 USEPA National Priority List

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.2 USEPA Delisted National Priority List

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.3 USEPA SEMS

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.4 USEPA SEMS ARCHIVED

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.5 USEPA CERCLIS

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.6 USEPA CERCLIS NFRAP

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.7 USEPA RCRA CORRACTS

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.8 RCRA Treatment, Storage, and Disposal Facilities – non-CORRACTS

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
1	0.50 mile	1	Glaxosmithkline Promo Distribution Center – NCR000006866 (2504 South Alston Avenue)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/Rationale
1	2,200 – East Northeast	South – Away from the Site	No	The listing does not appear to represent an environmental concern to the Site based on the distance of this facility from the Site.

A copy of the listing is included in Appendix 1.

5.3.9 USEPA RCRA Generators

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # - CESQG/SQG/LQG (Address)
1	Site and Adjoining Properties	1	Kuehne Nagel Logistics/Medics - NCR000139824 (2532 Whilden Drive)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/Rationale
1	Adjacent East	South – Away from the Site	No	Refer to Section 5.2 for additional information.

A copy of the listing is included in Appendix 1.

5.3.10 National Response Center ERNS

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	Site only	No listings	No listings

5.3.11 Federally Listed Sites with Institutional and/or Engineering Controls

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	Site only	No listings	No listings

5.3.12 State Listed No Further Action Sites with Land Use Restrictions Monitoring

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	Site only	No listings	No listings

5.3.13 State Listed Registry of Inactive Hazardous Sites and Delisted Inactive Hazardous Sites

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
1	1.0 mile	1	Matthews, VC Residence – NONCD0002047 (3426 Highway 55)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/ Rationale
1	4,900 – South	South – Away from the Site	No	The listing does not appear to represent an environmental concern to the Site based on the apparent flow of groundwater to the west and away from the Site and the distance of this facility from the Site.

A copy of the listing is included in Appendix 1.

5.3.14 State Listed Registry of Responsible Party Voluntary Action Sites

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.15 State Listed Brownfield Project Inventory Sites

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.16 State Listed Hazardous Substance Disposal Sites

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.17 State Listed Solid Waste Facilities and Landfills

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.18 State Listings of Registered Tanks

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name: Address – PBS Identification #
0	Site and adjoining properties only	No listings	No listings

5.3.19 NCDEQ Active and Closed/Inactive Spill and Leaking Storage Tanks

Listing Summary

Number of Listed Sites	Search Radius	Listing Number	Facility Name: Address – Spill # (status)
3 active 0 closed/inactive	Active listings: 0.50 mile Closed/inactive listings: Site and adjoining properties only	1	Hardy Property – Spill #33731 (not listed)
		2	Circle K Store – Spill #46307 (not listed)
		3	Bank One Property - Spill #33262 (not listed)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Overburden Groundwater Flow Direction	REC (Yes/No)	Additional Information and/or Rationale
1	200– West Northwest	South – away from the Site	No	According to the listing, an underground leak of petroleum impacted the groundwater at the property. The release appears to have been remediated on September 16, 2009; however the status of the LUST is not indicated. No further pertinent information was obtained from the listing. The listing does not appear to represent an environmental concern based on the apparent flow of groundwater to the south and away from the Site, and the distance of this facility from the Site.

Reference Number	Approximate Distance from Site (feet) – Direction	Overburden Groundwater Flow Direction	REC (Yes/No)	Additional Information and/or Rationale
2	1,100 - North	South – Towards the Site	No	This listing does not appear to represent an environmental concern to the Site based on the apparent flow of groundwater to the west and the distance of this facility from the Site.
3	1,800 - Southwest	South – Away from the Site	No	This listing does not appear to represent an environmental concern to the Site based on the apparent flow of groundwater to the west and the distance of this facility from the Site.

Review of the NCDEQ Spills/Leaking Storage Tank (LST) database identified 12 closed/inactive NCDEQ Spills within a 0.5-mile radius of the Site that did not occur on the Site or adjoining/adjacent properties. As spills assigned a closed or inactive status by the NCDEQ typically suggests that the spill incident has been remedied to the satisfaction of the NCDEQ, these spill incidents do not appear to represent an environmental concern related to the Site.

In addition, seven of unmapped closed/inactive Spills are potentially located within a 0.5-mile radius of the Site. These spills are considered “unmapped” as the spills have an incomplete or inaccurate address and therefore, the specific location of the spills could not be determined. Based on the limited address information available for the closed/inactive unmapped spills, they do not appear to be located on the Site or adjacent properties. As spills assigned a closed or inactive status by the NCDEQ typically suggests that the spill incident has been remedied to the satisfaction of the NCDEQ, these spill incidents do not appear to represent an environmental concern related to the Site.

5.3.20 Assessment of the Potential for Soil Vapor Intrusion

Vapor intrusion is the entry of VOCs to indoor air from underlying contamination in soil and groundwater. Based on the results of this assessment, no information was obtained suggesting the presence of a soil vapor intrusion concern at the Site at this time.

5.4 Additional Environmental Record Sources

5.4.1 Review of Previous Environmental Reports

LaBella reviewed a Phase I Environmental Site Assessment, for the property identified as Vickers Site, addressed as 2624 Highway 55, prepared by LaBella Associates, dated October 23, 2017. Based on the contents of that report, the site consisted of 73.4 acres and was undeveloped. The previous report found conditions similar to those observed during this assessment and no environmental concerns present with the Site. A copy of the previous report is included within Appendix 8.

5.4.2 Other Records

No other records were obtained or were reasonably ascertainable for review.

5.5 Historical Use Information on the Property and Adjoining Properties

LaBella attempted to review reasonably ascertainable and readily available standard sources of historical information as defined by the ASTM Standard Practice E1527-13 in order to identify all obvious usages of the Site back to the first developed use or 1940, whichever is earlier (i.e., the historical research objective according to ASTM). Uses of the properties adjoining the Site are identified in this report only to the extent that this information is revealed in the course of researching the Site itself and were determined at the discretion of the Environmental Analyst. As such, LaBella reviewed only as many of these sources as necessary to achieve the historical research objective. It should be noted that the lack of availability of reasonably ascertainable and readily available standard ASTM required sources have the potential to affect the findings of this assessment and can impact the ability of the Environmental Professional or Analyst to identify recognized environmental conditions and may result in a data failure (defined in Section 8.2.1 of this report). A data failure may represent a significant data gap. Data failures and data gaps are identified, defined, and evaluated for their significance in Section 8.2 of this report.

Standard historical sources LaBella attempted to review are outlined in the table below.

Section	Historical Source	Date(s)	Source/Comments
5.5.1	Sanborn Fire Insurance Maps	Not Available	EDR
5.5.2	Aerial Photographs	1937, 1940, 1950, 1955, 1961, 1964, 1972, 1977, 1980, 1983, 1993, 1998, 2005, 2005, 2006, 2008, 2009, 2010, 2012	EDR
5.5.3	Municipal Records	Not Applicable	Not Applicable
5.5.4	Recorded Land Title Records	2002	McPherson & Rocamora, PLLC
5.5.5	Historical Topographic Maps	1943, 1951, 1973, 1981, 1987, 1993, 2002, and 2013	EDR
5.5.6	Local Street Directories	Dates, Not applicable Or Not consulted	EDR

5.5.1 Sanborn Fire Insurance Maps

Sanborn Fire Insurance maps do not appear to provide coverage to the Site and surrounding properties. As such, Sanborn Fire Insurance maps were not reviewed as part of this Phase I ESA. A copy of the “No Coverage” letter obtained from EDR is included in Appendix 2.

5.5.2 Aerial Photography

The table below outlines observations of the Site and adjacent properties obtained from the review of aerial photographs.

Date	Observations
1937, 1943, 1950, 1955, 1961, 1964	The Site appears to be undeveloped, and utilized as farmland on the north area. The surrounding properties appear to be farmland and undeveloped land.
1972, 1977, 1980, 1983, 1993	The Site appears to be undeveloped. The north, south and east adjacent properties appear to be undeveloped. The west adjacent property appears to be developed with residential dwellings.
1998, 2002	The Site appears to be developed with the existing tower, with the remainder of the Site undeveloped. The north adjacent property appears to be developed with a parking lot. The east adjacent property appears to be developed with a commercial structure. The south adjacent property appears to be undeveloped. The west adjacent property appears to be developed with residential dwellings.

Date	Observations
2005, 2006, 2008, 2009, 2010, 2012	The Site appears to be developed with the existing tower, with the remainder of the Site undeveloped. The north adjacent property appears to be developed with a parking lot. The east adjacent property appears to be developed with a commercial structure. The south and west adjacent property appears to be developed with residential dwellings.

Copies of the aerial photographs are included in Appendix 3.

5.5.3 Municipal Records

A FOIL request was submitted to the City of Durham Clerk Ms. Ann Gray, on March 28, 2019. The City of Durham acknowledged receipt of LaBella FOIL request on March 28, 2019. As of the date of this report, a response has not been received from the City of Durham. A copy of the FOIL request is included in Appendix 6.

5.5.4 Recorded Land Title Records

Review of the abstract of title for the Site provided by Richard Vickers indicated the Site has been historically owned by Mack Vickers, Juanita L. Brantley Vickers, and Vickers Land Company, LLC. The Site is currently owned by Vickers Land Company, LLC.

A copy of the deed record is included in Appendix 4.

5.5.5 Historical Topographic Maps

The table below outlines observations of the Site and adjacent properties obtained from the review of available historical atlases.

Date	Observations
1943	The Site and surrounding properties appear to be undeveloped.
1951	The Site and surrounding properties appear to be undeveloped. The Site appears to be bordered to the east by Highway 55
1973, 1981, 1987, 1993	The Site appears to be undeveloped, and bordered to the east by Highway 55. The north, east, and south adjacent properties appear to be undeveloped. The west adjacent property appears to be developed with residential dwellings.
2002	The Site appears to be developed with a road, and bordered to the east by highway 55. The north and south adjacent properties appear to be undeveloped. The east adjacent property appears to be developed with a commercial structure. The west adjacent property appears to be developed with residential dwellings.
2013	The Site appears to be undeveloped. The north and east adjacent property appears to be undeveloped. The south and west adjacent properties appear to be developed with residential dwellings.

Copies of the historical atlases are included in Appendix 2.

5.5.6 Local Street Directories

No listings were identified for 2624 Highway 55 from 1920 to 2014.

Review of the street directories indicated that properties surrounding the Site were historically utilized for commercial, religious, and residential purposes. No adjacent property uses of potential concern were identified.

5.5.7 Summary of Historical Information

Based on the historical records reviewed, the Site has consisted of undeveloped land since at least 1937; however, an apparent cell tower has been located on the central portion of the Site since at least 1998 until present. Based on the historical use of the Site, there are no apparent environmental associated with the Site at this time.

The northern and eastern adjacent properties appear undeveloped from at least 1937 until at least 1993. The northern and eastern adjacent properties have been developed with an apparent church and commercial structure, respectively since at least 1998. The western and southern adjacent properties appear undeveloped from at least 1937 until at least 1964 and 2002, respectively. The southern adjacent properties appear to have been developed residentially since at least 2005. Residential structures appear to have been developed on the western adjacent properties since at least 1972 and appeared undeveloped prior to this. Based on the historical use of the adjacent properties, there are no apparent environmental concerns associated with the adjacent properties at this time.

6.0 SITE RECONNAISSANCE

Conducted by: Rick Rote, and Gretta Eller, North Carolina Regional Environmental Managers

Date of site visit: April 17, 2019

Representative photographs from the site visit are included in the Figures and Photographs section of this report. In addition, observations discussed in this Section are outlined on Figure 3 in the Figures and Photographs section of this report. Site visit limitations are outlined in Section 2.5 above. Copies of the field notes taken during the site visit are included in Appendix 4.

6.1 Interior Observations

The Site is undeveloped therefore no interior observations were made at the time of the Site visit.

6.2 Exterior Observations

6.2.1 Historical Usage

Observed	Additional Information
No	No apparent indicators (i.e., signs, equipment, etc.) were observed on the exterior of the Site at the time of the site visit which would indicate historical usages of the Site.

6.2.2 Hazardous Substances and Petroleum Products in Connection with Identified Usages

Observed	Additional Information
No	No apparent hazardous substances or petroleum products were observed on the exterior of the Site at the time of the site visit.

6.2.3 Storage Tanks

Noted	Additional Information
No	No apparent indications of aboveground or underground storage tanks (e.g., fill ports, vent pipes, access ways) were observed on the exterior of the Site at the time of the Site visit.

6.2.4 Odors

Noted	Additional Information
No	No apparent strong, pungent, or noxious odors were noted on the exterior of the Site at the time of the site visit.

6.2.5 Pools of Liquid(s)

Observed	Additional Information
No	No apparent pools, sumps, or standing water containing liquids likely to be hazardous substances or petroleum products were noted on the exterior of the Site at the time of the site visit.

6.2.6 Unidentified Substance Containers

Noted	Additional Information
No	No apparent unidentified substance containers were observed on the exterior of the Site at the time of the site visit.

6.2.7 Pits, Ponds, or Lagoons

Observed on the Site	Additional Information
No	No apparent pits, ponds, or lagoons were observed at the Site at the time of the site visit.

6.2.8 Stained Soil or Pavement

Observed on the Site	Additional Information
No	No apparent stained soils or pavement were observed at the Site at the time of the site visit.

6.2.9 Stressed Vegetation

Observed on the Site	Additional Information
No	No apparent stressed vegetation was observed at the time of the site visit.

6.2.10 Solid Waste

Observed on the Site	Additional Information
Yes	Several debris piles were observed at the time of the Site visit along the road leading to the cell tower on the Site. The debris piles contained wood, carpet, insulation, shingles, and asbestos cement siding panels. No apparent leaks, stains, spills, or unusual odors were noted in the vicinity of the waste piles. As such there are no apparent environmental concerns associated with the solid waste at the Site at this time.

6.2.11 Wastewater

Observed on the Site	Additional Information
No	Wastewater does not appear to be discharged on the exterior of the Site.

6.2.12 Wells

Observed on the Site	Additional Information
No	No apparent wells were observed on the exterior of the Site at the time of the site visit or reported to be located on the Site.

6.2.13 Septic Systems

Observed on the Site	Additional Information
No	No apparent indications of on-Site septic systems or cesspools were observed on the Site at the time of the site visit.

6.2.14 PCBs-Containing Equipment

Observed	Additional Information
No	No apparent electrical or hydraulic equipment reportedly containing PCBs were observed on the exterior of the Site at the time of the site visit.

7.0 INTERVIEWS

7.1 Owner

Mr. Richard Vickers, Owner, was interviewed as part of this assessment. According to information obtained through the interview the Site was farmed in the 1950's and has been used as a wood lot for the past decade. Mr. Vickers also stated a Verizon cell tower is located on the Site. The notes from the interview are included in Appendix 5.

7.2 Local Government Officials

A FOIL request was submitted to the City of Durham Clerk, Ms. Ann Gray on March 28, 2019 requesting copies of building department, assessment and fire marshal records on file for the Site with the City of Durham. A response has not been received from the City of Durham as of the date of this report.

A copy of the FOIL request is included in Appendix 6.

7.3 Tribal Records

There do not appear to be any Native American Sovereign Territories on or within one mile of the Site. In accordance with ASTM Standard Practice E1527-13, tribal records will only be reviewed if the subject Site falls on or within one mile of Native American Sovereign Territory. Therefore, tribal government representatives were not contacted as part of this AAI Phase I ESA report.

7.4 North Carolina Department of Environmental Quality

A FOIL request was submitted to the NCDEQ on March 27, 2019. A letter dated March 27, 2019, stated that the NCDEQ acknowledged LaBella's FOIL request and has initiated a records search. As of the date of this report submission, a complete response has not been received from the NCDEQ. Any pertinent information received as a result of this FOIL request will be included as a Letter of Addendum. A copy of the FOIL request is included in Appendix 6.

7.5 Durham County Department of Health

A FOIL request was submitted to the DCDOH on March 27, 2019. A response was received from the DCDOH on March 28, 2019. According to the DCDOH, no health records were on file for the Site. Copies of the FOIL request and response are included in Appendix 6.

8.0 FINDINGS, OPINIONS AND CONCLUSIONS

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E1527-13 for 2624 Highway 55, City of Durham, Durham County, North Carolina, 27713, the Site.

8.1 Findings

Any exceptions to, or deletions from, this practice are described in Section 2.5 of this report. Based on the results of this assessment, no apparent RECs have been identified associated with the Site at this time.

8.1.1 Additional Findings

Based on the results of this assessment, no apparent HRECs, CRECs, or de minimis conditions have been identified associated with the Site at this time.

8.2 Data Failures and Data Gaps

8.2.1 Data Failures

ASTM E1527-13 defines a data failure as a failure to achieve the historical research objectives of AAI even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. Specifically, the historical research objectives include identifying all obvious uses of the Site from the present, back to the Site's first developed use, or back to 1940, whichever is earlier.

A data failure was not encountered within Scope of Work of this assessment.

8.2.2 Data Gaps

ASTM E1527-13 defines a data gap as a lack of or an inability to obtain information required by this practice despite *good faith* efforts by the *Environmental Professional* to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance, interviews, data failure, or lack of a User Questionnaire.

A Data gap was encountered within the Scope of Work of this assessment. The data gap includes the lack of FOIL response from the City of Durham, and the NCDEQ. The receipt of relevant environmental information as a result of FOIL requests has the ability to change the Findings and Conclusions of this report. However, it should be noted that the review of standard State and Federal regulatory database listings during the course of this Phase I ESA did not identify environmental concerns relative to the Site.

8.3 Opinion of Findings

Based on the findings of this assessment, no further investigation appears warranted at this time.

9.0 DEVIATIONS

No deviations were made to the report, other than the Limitations and Exceptions as stated in Section 2.5.

10.0 ADDITIONAL SERVICES

No additional services were provided or agreed upon as part of this assessment.

11.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to our knowledge and belief, we meet the definition of Environmental Professional as defined in ASTM Standard Practice E1527-13 and §312.20 of 40 CFR §312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting at the subject property.

We have developed and performed the Scope of Work for this assessment in conformance with the standards, practices, and limitations set forth in ASTM Standard Practice E1527-13.

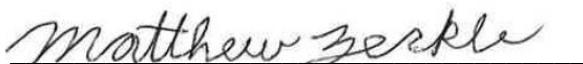

Rick Rote, MS, CIH
North Carolina Regional Environmental Manager
Environmental Professional

Patrick Rodman
Assistant Phase I Technical Manager
Environmental Professional

The following representative of LaBella assisted in the completion of this report.

Matthew Zerkle
Environmental Analyst

pr/rr/mz

12.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

Rick Rote, MS, CIH / North Carolina Regional Environmental Manager (Environmental Professional)

Rick is a Certified Industrial Hygienist (CIH) and Regional Environmental Program Manager for North Carolina. He has over 25 years of professional consulting experience for public and private sector clients.

Rick is responsible for the coordination and successful completion of Environmental, Health & Safety, and Due Diligence Program services. Working with financial institutions, attorneys and private developers, Rick provides efficient analysis and timely completion of environmental reports required for property transactions. The site assessments include evaluation of environmental liability associated with properties such as warehouses, gas stations, auto repair facilities, manufacturing facilities, farms, commercial properties, and residential. Rick is also responsible for delivery of hazardous materials services for the management of asbestos, lead-based paint, PCB, mercury, and others. Hazardous materials management services include inspections, abatement design and remediation monitoring. As a Certified Industrial Hygienist (CIH), Rick has extensive experience with occupational health and safety studies, OSHA compliance, Indoor Air Quality investigations, mold assessments, community noise, and many other health and safety topics.

Gabrielle Krawiec | Phase I Business Manager

Gabrielle is the Phase I ESA Business Manager responsible client management, business development, and the coordination of Phase I Environmental Site Assessments. Working with financial institutions, attorneys and private developers, Gabby provides efficient analysis and completion of environmental reports required for property transactions. The site assessments include evaluation of environmental liability associated with properties such as warehouses, gas stations, auto repair facilities, manufacturing facilities, farms, commercial, and residential.

Rhiannon Leonhardt | Phase I Technical Manager (Environmental Professional)

Rhiannon is the Phase I ESA Technical Manager responsible for the development and training of Phase I Analysts as well as providing efficient analysis and assisting in the completion of environmental reports required for property transactions. The site assessments include evaluation of environmental liability associated with properties such as warehouses, gas stations, auto repair facilities, manufacturing facilities, farms, commercial, and residential. Rhiannon has over six years of experience preparing, reviewing, and/or editing Phase I and Phase II Environmental Site Assessments.

Chris Kibler | Senior Environmental Analyst (Environmental Professional)

Chris is a Senior Environmental Analyst responsible for the coordination and successful completion of Phase I and II ESAs. Working with financial institutions, attorneys, private developers and municipalities, he conducts ESAs in support of real estate transactions and brownfield redevelopment initiatives. Mr. Kibler's experience includes historical and regulatory records review; field sampling and data collection using a variety of techniques and equipment; the review and evaluation of field and laboratory analytical data; and the preparation of technical reports defining potential environmental liabilities and, if warranted, remedial options.

Matthew Zerkle | Environmental Analyst

Matthew is an Environmental Analyst and is responsible for the preparation of Phase I Environmental Site Assessments. The site assessments include evaluation of environmental liability associated with properties, and Matthew provides efficient analysis and completion of environmental reports for financial institutions, attorneys and private developers.

Two 450 gal heating oil usts removed 4/23/07. Soil sample collected following the removal of UST#2 was less than 10ppm TPH. Soil sample collected following the removal of UST#1 was greater than 10ppm TPH. Approximately 25.25 tons of contaminated soil was excavated from around UST#1. Vertical excavation was terminated when bed rock was encountered at 6ft bgs. Confirmation side wall samples collected from UST#1 pit were less than soil-to-groundwater and residential MSCCs. LSA letter issued 6/1/07, RMR.///

Report Type Description:						
Comment :						
60.62 tons of impacted soil removed. Soil sample collected from beneath the UST was TPH-DRO of 10000 mg/kg. Following overexcavation bottom and sidewall samples were taken. Sidewall sample located close to foundation was in exceedance of the Residential Standard for Aromatics and aliphatics. Other exceedances were over STGW for the same sample. Need LSA at this stage.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ERIS updates databases as set out in ASTM Standard E1527-13, Section 8.1.8 Sources of Standard Source Information:

"Government information from nongovernmental sources may be considered current if the source updates the information at least every 90 days, or, for information that is updated less frequently than quarterly by the government agency, within 90 days of the date the government agency makes the information available to the public."

Standard Environmental Record Sources

Federal

National Priority List:

NPL

National Priorities List (Superfund)-NPL: EPA's (United States Environmental Protection Agency) list of the most serious uncontrolled or abandoned hazardous waste sites identified for possible long-term remedial action under the Superfund program. The NPL, which EPA is required to update at least once a year, is based primarily on the score a site receives from EPA's Hazard Ranking System. A site must be on the NPL to receive money from the Superfund Trust Fund for remedial action.

Government Publication Date: Feb 6, 2019

National Priority List - Proposed:

PROPOSED NPL

Includes sites proposed (by the EPA, the state, or concerned citizens) for addition to the NPL due to contamination by hazardous waste and identified by the Environmental Protection Agency (EPA) as a candidate for cleanup because it poses a risk to human health and/or the environment.

Government Publication Date: Feb 6, 2019

Deleted NPL:

DELETED NPL

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Government Publication Date: Feb 6, 2019

SEMS List 8R Active Site Inventory:

SEMS

The Superfund Program has deployed the Superfund Enterprise Management System (SEMS), which integrates multiple legacy systems into a comprehensive tracking and reporting tool. This inventory contains active sites evaluated by the Superfund program that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The Active Site Inventory Report displays site and location information at active SEMS sites. An active site is one at which site assessment, removal, remedial, enforcement, cost recovery, or oversight activities are being planned or conducted.

Government Publication Date: Feb 6, 2019

Inventory of Open Dumps, June 1985:

ODI

The Resource Conservation and Recovery Act (RCRA) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

Government Publication Date: Jun 1985

SEMS List 8R Archive Sites:

SEMS ARCHIVE

The Superfund Enterprise Management System (SEMS) Archived Site Inventory displays site and location information at sites archived from SEMS. An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time.

Government Publication Date: Feb 6, 2019

Superfund is a program administered by the United States Environmental Protection Agency (EPA) to locate, investigate, and clean up the worst hazardous waste sites throughout the United States. CERCLIS is a database of potential and confirmed hazardous waste sites at which the EPA Superfund program has some involvement. It contains sites that are either proposed to be or are on the National Priorities List (NPL) as well as sites that are in the screening and assessment phase for possible inclusion on the NPL. The EPA administers the Superfund program in cooperation with individual states and tribal governments; this database is made available by the EPA.

Government Publication Date: Oct 25, 2013

EPA Report on the Status of Open Dumps on Indian Lands:

IODI

Public Law 103-399, The Indian Lands Open Dump Cleanup Act of 1994, enacted October 22, 1994, identified congressional concerns that solid waste open dump sites located on American Indian or Alaska Native (AI/AN) lands threaten the health and safety of residents of those lands and contiguous areas. The purpose of the Act is to identify the location of open dumps on Indian lands, assess the relative health and environment hazards posed by those sites, and provide financial and technical assistance to Indian tribal governments to close such dumps in compliance with Federal standards and regulations or standards promulgated by Indian Tribal governments or Alaska Native entities.

Government Publication Date: Dec 31, 1998

CERCLIS - No Further Remedial Action Planned:

CERCLIS NFRAP

An archived site is one at which EPA has determined that assessment has been completed and no further remedial action is planned under the Superfund program at this time. The Archive designation means that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL). This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

Government Publication Date: Oct 25, 2013

CERCLIS Liens:

CERCLIS LIENS

A Federal Superfund lien exists at any property where EPA has incurred Superfund costs to address contamination ("Superfund site") and has provided notice of liability to the property owner. A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 30, 2014

RCRA CORRACTS-Corrective Action:

RCRA CORRACTS

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. At these sites, the Corrective Action Program ensures that cleanups occur. EPA and state regulators work with facilities and communities to design remedies based on the contamination, geology, and anticipated use unique to each site.

Government Publication Date: Dec 17, 2018

RCRA non-CORRACTS TSD Facilities:

RCRA TSD

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. This database includes Non-Corrective Action sites listed as treatment, storage and/or disposal facilities of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA).

Government Publication Date: Dec 17, 2018

RCRA Generator List:

RCRA LQG

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Large Quantity Generators (LQGs) generate 1,000 kilograms per month or more of hazardous waste or more than one kilogram per month of acutely hazardous waste.

Government Publication Date: Dec 17, 2018

RCRA Small Quantity Generators List:

RCRA SQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Small Quantity Generators (SQGs) generate more than 100 kilograms, but less than 1,000 kilograms, of hazardous waste per month.

Government Publication Date: Dec 17, 2018

RCRA Conditionally Exempt Small Quantity Generators List:

RCRA CESQG

RCRA Info is the EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Conditionally Exempt Small Quantity Generators (CESQG) generate 100 kilograms or less per month of hazardous waste or one kilogram or less per month of acutely hazardous waste.

Government Publication Date: Dec 17, 2018

RCRA Non-Generators:

RCRA NON GEN

RCRA Info is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. RCRA Info replaces the data recording and reporting abilities of the Resource Conservation and Recovery Information System (RCRIS) and the Biennial Reporting System (BRS). A hazardous waste generator is any person or site whose processes and actions create hazardous waste (see 40 CFR 260.10). Non-Generators do not presently generate hazardous waste.

Government Publication Date: Dec 17, 2018

Federal Engineering Controls-ECS:

FED ENG

Engineering controls (ECs) encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 20, 2016

Federal Institutional Controls- ICs:

FED INST

Institutional controls are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's (United States Environmental Protection Agency) expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site.

Government Publication Date: Jan 20, 2016

Emergency Response Notification System:

ERNS 1982 TO 1986

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1982-1986

Emergency Response Notification System:

ERNS 1987 TO 1989

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories.

Government Publication Date: 1987-1989

Emergency Response Notification System:

ERNS

Database of oil and hazardous substances spill reports controlled by the National Response Center. The primary function of the National Response Center is to serve as the sole national point of contact for reporting oil, chemical, radiological, biological, and etiological discharges into the environment anywhere in the United States and its territories. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Sep 24, 2018

The Assessment, Cleanup and Redevelopment Exchange System (ACRES) Brownfield Database:

FED BROWNFIELDS

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties protects the environment, reduces blight, and takes development pressures off greenspaces and working lands. This database is made available by the United States Environmental Protection Agency (EPA).

Government Publication Date: Jan 11, 2019

FEMA Underground Storage Tank Listing:

FEMA UST

The Federal Emergency Management Agency (FEMA) of the Department of Homeland Security maintains a list of FEMA owned underground storage tanks.

Government Publication Date: Dec 31, 2017

LIEN on Property:

SEMS LIEN

The EPA Superfund Enterprise Management System (SEMS) provides LIEN information on properties under the EPA Superfund Program.

Government Publication Date: Feb 6, 2019

Superfund Decision Documents:

SUPERFUND ROD

This database contains a listing of decision documents for Superfund sites. Decision documents serve to provide the reasoning for the choice of (or) changes to a Superfund Site cleanup plan. The decision documents include Records of Decision (ROD), ROD Amendments, Explanations of Significant Differences (ESD), along with other associated memos and files. This information is maintained and made available by the US EPA (Environmental Protection Agency).

Government Publication Date: Feb 12, 2019

State**Inactive Hazardous Sites Inventory:**

SHWS

Inactive Hazardous Sites Inventory made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ). "Inactive Hazardous Sites" by definition are any areas where a hazardous substance release has come to be located and would include active and inactive facilities and a variety of property types. The term "inactive" refers to the fact that cleanup was inactive at large numbers of sites at the time of program enactment. This database is state equivalent CERCLIS.

Government Publication Date: Jan 9, 2019

State Trust Funds Database:

LUST TRUST

The Trust Fund Branch administers the Leaking Petroleum Underground Storage Tank Cleanup Funds and Environmental Protection Agency (EPA) grants. The Underground Storage Tank (UST) funds provide reimbursement for costs incurred during the cleanup of soil and groundwater contamination resulting from a release of petroleum from an underground storage tank. Two funds, the Commercial Trust Fund and the Non-Commercial Trust Fund, have been established to reimburse tank owners, operators, and landowners for costs associated with cleanups. This was made available by the Division of Waste Management in the Department of Environmental Quality (DEQ).

Government Publication Date: Mar 1, 2019

Delisted Inactive Hazardous Sites Inventory:

DEL SHWS

This list is comprised of sites that were once included in the inventory of Inactive Hazardous Sites, but have been removed from the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ). This database is state equivalent CERCLIS.

Government Publication Date: Jan 09, 2019

Solid Waste Facilities and Landfills:

SWF/LF

List of permitted solid waste and landfill facilities made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Oct 5, 2018

Old Landfill Inventory:

OLD LF

The Old Landfill Inventory, made available by the Division of Waste Management in the North Carolina Department of Environment and Natural Resources (NCDENR), lists locations of non-permitted landfills that were closed prior to January 1, 1983 when waste disposal permitting regulations commenced. Legislation in 2007 (SB1492) resulted in adding new provisions to the Inactive Hazardous Sites Response Act for addressing these landfills. The Old Landfill Inventory is managed by the Pre-Regulatory Landfill Unit within the Inactive Hazardous Sites Branch.

Government Publication Date: Jun 4, 2009

Coal Ash Disposal Sites:

COAL ASH LF

The Department of Environmental Quality (DEQ) Division of Waste Management's Solid Waste Program regulates coal combustion residuals (CCR) from coal-fired electric power plants that are disposed of on land in accordance with North Carolina General Statute 130a, which includes the Coal Ash Management Act of 2014 (SL 2014-122 on August 20, 2014). CCRs primarily consist of coal bottom and fly ash, and flue gas desulfurization residuals.

Government Publication Date: Oct 5, 2017

Incident Management Database (Regional Underground Storage Tanks):

LUST

Listing of leaking underground storage tank sites from the Incident Management database made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Dec 14, 2018

Hazard Substance Disposal Sites:

HSDS

A list of Hazard Substance Disposal Sites that are maintained by North Carolina Center for Geographic Information and Analysis. This list monitors the locations of unregulated and uncontrolled hazard waste sites. This list is the state equivalent of National Priority List (NPL).

Government Publication Date: Dec 31, 1998

Aboveground Incident Management Database (Regional Aboveground Storage Tanks):

LAST

Listing of leaking aboveground storage tank sites from the Aboveground Incident Management database made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Feb 1, 2019

Delisted Leaking Storage Tanks:

DELISTED LST

List of leaking storage tank sites which were once included, but have since been removed from the Incident Management Databases made available by the North Carolina Department of Environmental Quality (DEQ)'s Division of Waste Management.

Government Publication Date: Feb 1, 2019

Registered Tanks Database:

UST

List of registered underground storage tanks made available by the Division of Waste Management in North Carolina's Department of Environmental Quality (DEQ).

Government Publication Date: Dec 14, 2018

Aboveground Storage Tanks:

AST

A listing of registered Aboveground Storage Tank sites made available by the North Carolina Department of Environmental Quality (DEQ). Note that aboveground storage tanks are only required to be registered with NC DEQ if they meet the definition of an Oil Terminal Facility.

Government Publication Date: Dec 3, 2018

Delisted Storage Tanks:

DTNK

List of sites which were once included, but have since been removed from the Underground or Aboveground Storage Tank databases made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Dec 14, 2018

No Further Action Sites with Land Use Restrictions Monitoring:

INST

List of No Further Action Sites with Land Use Restrictions made available by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Jan 9, 2019

Fuel Service Stations:

FUEL STATIONS

List of active fuel service stations made available by the North Carolina Department of Agriculture & Consumer Services (NCDA&CS). The NCDA&CS have responsibilities in regulatory and service areas covering agronomy including weights and measures and gas and oil inspection.

Government Publication Date: Feb 13, 2019

Delisted Fuel Service Stations:

DELISTED FSS

A list of Fuel Service Stations that has been delisted from the active fuel service stations list which is made available by the North Carolina Department of Agriculture & Consumer Services (NCDA&CS).

Government Publication Date: Feb 13, 2019

Responsible Party Voluntary Action Sites:

VCP

List of Responsible Party Voluntary Action Sites administered by the Inactive Hazardous Sites Branch. This list is made available by the North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Jan 9, 2019

Brownfields Projects Inventory:

BROWNFIELDS

A "brownfields site" is an abandoned, idled or underused property where the threat of environmental contamination has hindered redevelopment. The North Carolina Brownfields Program, which is administered by the Division of Waste Management in the North Carolina Department of Environmental Quality (DEQ), is the state's effort to break this barrier to the redevelopment of these sites.

Additional Environmental Record Sources

Federal

Facility Registry Service/Facility Index:

FINDS/FRS

The US Environmental Protection Agency (EPA)'s Facility Registry System (FRS) is a centrally managed database that identifies facilities, sites or places subject to environmental regulations or of environmental interest. FRS creates high-quality, accurate, and authoritative facility identification records through rigorous verification and management procedures that incorporate information from program national systems, state master facility records, data collected from EPA's Central Data Exchange registrations and data management personnel.

Government Publication Date: Jan 30, 2019

Toxics Release Inventory (TRI) Program:

TRIS

The EPA's Toxics Release Inventory (TRI) is a database containing data on disposal or other releases of over 650 toxic chemicals from thousands of U.S. facilities and information about how facilities manage those chemicals through recycling, energy recovery, and treatment. One of TRI's primary purposes is to inform communities about toxic chemical releases to the environment.

Government Publication Date: Dec 31, 2017

Hazardous Materials Information Reporting System:

HMIRS

US DOT - Department of Transportation Pipeline and Hazardous Materials Safety Administration (PHMSA) Incidents Reports Database taken from Hazmat Intelligence Portal, U.S. Department of Transportation.

Government Publication Date: May 23, 2018

National Clandestine Drug Labs:

NCDL

The U.S. Department of Justice ("the Department") provides this data as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy.

Government Publication Date: Jul 18, 2018

Toxic Substances Control Act:

TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The CDR enables EPA to collect and publish information on the manufacturing, processing, and use of commercial chemical substances and mixtures (referred to hereafter as chemical substances) on the TSCA Chemical Substance Inventory (TSCA Inventory). This includes current information on chemical substance production volumes, manufacturing sites, and how the chemical substances are used. This information helps the Agency determine whether people or the environment are potentially exposed to reported chemical substances. EPA publishes submitted CDR data that is not Confidential Business Information (CBI).

Government Publication Date: Jun 30, 2017

Hist TSCA:

HIST TSCA

The Environmental Protection Agency (EPA) is amending the Toxic Substances Control Act (TSCA) section 8(a) Inventory Update Reporting (IUR) rule and changing its name to the Chemical Data Reporting (CDR) rule.

The 2006 IUR data summary report includes information about chemicals manufactured or imported in quantities of 25,000 pounds or more at a single site during calendar year 2005. In addition to the basic manufacturing information collected in previous reporting cycles, the 2006 cycle is the first time EPA collected information to characterize exposure during manufacturing, processing and use of organic chemicals. The 2006 cycle also is the first time manufacturers of inorganic chemicals were required to report basic manufacturing information.

Government Publication Date: Dec 31, 2006

FTTS Administrative Case Listing:

FTTS ADMIN

An administrative case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

FTTS Inspection Case Listing:

FTTS INSP

An inspection case listing from the Federal Insecticide, Fungicide, & Rodenticide Act (FIFRA) and Toxic Substances Control Act (TSCA), together known as FTTS. This database was obtained from the Environmental Protection Agency's (EPA) National Compliance Database (NCDB). The FTTS and NCDB was shut down in 2006.

Government Publication Date: Jan 19, 2007

Potentially Responsible Parties List:

PRP

Early in the cleanup process, the Environmental Protection Agency (EPA) conducts a search to find the potentially responsible parties (PRPs). EPA looks for evidence to determine liability by matching wastes found at the site with parties that may have contributed wastes to the site.

Government Publication Date: Dec 20, 2018

State Coalition for Remediation of Drycleaners Listing:

SCRD DRYCLEANER

The State Coalition for Remediation of Drycleaners (SCRD) was established in 1998, with support from the U.S. Environmental Protection Agency (EPA) Office of Superfund Remediation and Technology Innovation. Coalition members are states with mandated programs and funding for drycleaner site remediation. Current members are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Government Publication Date: Nov 08, 2017

Integrated Compliance Information System (ICIS):

ICIS

The Integrated Compliance Information System (ICIS) is a system that provides information for the Federal Enforcement and Compliance (FE&C) and the National Pollutant Discharge Elimination System (NPDES) programs. The FE&C component supports the Environmental Protection Agency's (EPA) Civil Enforcement and Compliance program activities. These activities include Compliance Assistance, Compliance Monitoring and Enforcement. The NPDES program supports tracking of NPDES permits, limits, discharge monitoring data and other program reports.

Government Publication Date: Nov 18, 2016

Drycleaner Facilities:

FED DRYCLEANERS

A list of drycleaner facilities from the Integrated Compliance Information System (ICIS). The Environmental Protection Agency (EPA) tracks facilities that possess NAIC and SIC codes that classify businesses as drycleaner establishments.

Government Publication Date: May 29, 2018

Delisted Drycleaner Facilities:

DELISTED FED DRY

List of sites removed from the list of Drycleaner Facilities (sites in the EPA's Integrated Compliance Information System (ICIS) with NAIC or SIC codes identifying the business as a drycleaner establishment).

Government Publication Date: May 29, 2018

Formerly Used Defense Sites:

FUDS

Formerly Used Defense Sites (FUDS) are properties that were formerly owned by, leased to, or otherwise possessed by and under the jurisdiction of the Secretary of Defense prior to October 1986, where the Department of Defense (DoD) is responsible for an environmental restoration. This list is published by the U.S. Army Corps of Engineers.

Government Publication Date: Oct 23, 2018

Material Licensing Tracking System (MLTS):

MLTS

A list of sites that store radioactive material subject to the Nuclear Regulatory Commission (NRC) licensing requirements. This list is maintained by the NRC. As of September 2016, the NRC no longer releases location information for sites. Site locations were last received in July 2016.

Government Publication Date: Nov 1, 2018

Historic Material Licensing Tracking System (MLTS) sites:

HIST MLTS

A historic list of sites that have inactive licenses and/or removed from the Material Licensing Tracking System (MLTS). In some cases, a site is removed from the MLTS when the state becomes an "Agreement State". An Agreement State is a State that has signed an agreement with the Nuclear Regulatory Commission (NRC) authorizing the State to regulate certain uses of radioactive materials within the State.

Government Publication Date: Jan 31, 2010

Mines Master Index File:

MINES

The Master Index File (MIF) contains mine identification numbers issued by the Department of Labor Mine Safety and Health Administration (MSHA) for mines active or opened since 1971. Note that addresses may or may not correspond with the physical location of the mine itself.

Government Publication Date: Nov 30, 2018

Alternative Fueling Stations:

ALT FUELS

List of alternative fueling stations made available by the US Department of Energy's Office of Energy Efficiency & Renewable Energy. Includes Biodiesel stations, Ethanol (E85) stations, Liquefied Petroleum Gas (Propane) stations, Ethanol (E85) stations, Natural Gas stations, Hydrogen stations, and Electric Vehicle Supply Equipment (EVSE). The National Renewable Energy Laboratory (NREL) obtains information about new stations from trade media, Clean Cities coordinators, a Submit New Station form on the Station Locator website, and through collaborating with infrastructure equipment and fuel providers, original equipment manufacturers (OEMs), and industry groups.

Government Publication Date: Jan 15, 2019

Registered Pesticide Establishments:

SSTS

List of active EPA-registered foreign and domestic pesticide-producing and device-producing establishments based on data from the Section Seven Tracking System (SSTS). The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7 requires that facilities producing pesticides, active ingredients, or devices be registered. The list of establishments is made available by the EPA.

Government Publication Date: Sep 1, 2018

Polychlorinated Biphenyl (PCB) Notifiers:

PCB

Facilities included in the national list of facilities that have notified the United States Environmental Protection Agency (EPA) of Polychlorinated Biphenyl (PCB) activities. Any company or person storing, transporting or disposing of PCBs or conducting PCB research and development must notify the EPA and receive an identification number.

Government Publication Date: Sep 14, 2018

State**Dry-cleaning Solvent Cleanup Act (DSCA) Program:**

DRY DSCA

The Dry-Cleaning Solvent Cleanup Act Program (DSCA) under the Division of Waste Management in the Department of Environmental Quality (DEQ) manages the assessment and cleanup of dry-cleaning solvent contaminated sites certified in the DSCA Program.

Government Publication Date: Apr 23, 2018

Incident Management Database (Spills):

SPILLS

The Incident Management Database (IMD) tracks spills, hazardous material releases, sanitary sewer overflows and wastewater treatment plant bypasses. This database is managed by the Pretreatment, Emergency Response and Collection Systems (PERCS) unit of the Department of Environmental Quality (DEQ).

Government Publication Date: Jun 12, 2018

Recycling Markets Directory:

SWRCY

List of recycling facilities made available by the Division of Environmental Assistance and Customer Service (DEACS) of the NC Department of Environmental Quality. Information is based on data supplied by the listed organizations to DEACS. DEACS is a non-regulatory state agency, does not regularly inspect facilities, and does not represent that the companies are, or are not, in compliance with applicable federal, state and local laws.

Government Publication Date: Apr 10, 2018

DELISTED DRYCLEANERS

List of dry cleaner locations which were once included, but no longer appear on, the list of active, inspected locations maintained by the Division of the Waste Management of North Carolina Department of Environmental Quality (DEQ).

Government Publication Date: Dec 31, 2017

Tribal

No Tribal additional environmental record sources available for this State.

County

No County additional environmental record sources available for this State.

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

STATE OF NORTH CAROLINA

GENERAL WARRANTY DEED

COUNTY OF DURHAM

THIS DEED, made this 26 day of August, 2002, by and between MACK L. VICKERS, JR. and wife, JUANITA L. BRANTLEY VICKERS (hereinafter referred to as "Grantor"), and VICKERS LAND COMPANY, LLC, a North Carolina limited liability company (hereinafter referred to as "Grantee"); Grantee's address is 6405 Fayetteville Road, Durham, North Carolina, 27713;

The designation Grantor and Grantee as used herein shall include said parties, their heirs, successors, and assigns, and shall include singular, plural, masculine, feminine or neuter as required by context.

WITNESSETH, that the Grantor, for a valuable consideration paid by the Grantee, the receipt of which is hereby acknowledged, has and by these present does bargain, sell, grant and convey unto Grantee in fee simple, his interest in and to those certain lots or parcels of land lying and being in Durham County, North Carolina, and being more particularly described as follows:

TRACT ONE: BEING all of Tract One, containing 16.997 acres, more or less, as shown on that plat entitled "Third Fork Creek Trail Vickers Property" dated December 9, 1996, and prepared by Donald F. Greeley, Reg. Land Surveyor, and recorded in Book of Maps 136, page 224, Durham County Registry, to which plat reference is hereby made for a more particular description.

TRACT TWO: BEGINNING at a monument located in the eastern right-of-way Kirby Street said monument being located at the northeast corner of property now or formerly owned by North Hampton Development Co., Inc., said monument having North Carolina grid coordinates of N = 799, 252.222 and E = 2,031,617.461; running thence from said point of BEGINNING along and with the eastern right-of-way of Kirby Street North 0 degs. 18 min. 9 sec. East 566.70 feet to a monument; thence continuing with said right-of-way and with the eastern property line of property now or formerly owned by North Hampton Development Co., Inc., North 0 degs. 17 min. 36 sec. East 1369.42 feet to a stake; running thence South 89 degs. 47 min. 2 sec. East 166.95 feet to a stake; thence North 0 degs. 30 min. 52 sec. East 261.47 feet to a stake; running thence North 54 degs. 45 min. 27 sec. East 436.97 feet to a stake in the western right-of-way of N.C. Highway No. 55; running thence with said right-of-way the following courses and distances: South 19 degs. 8 min. 33 sec. East 1089.88 feet to an iron pin, South 70 degs. 51 min. 31 sec. West 25.00 feet to an iron pin, South 19 degs. 8 min. 33 sec. Est 223.67 feet to an iron pin, along and with a clockwise curve having a radius of 11,359.16 feet an arc distance of 671.15 feet to an iron pin, South 71 degs. 14 min. 35 sec. West 30.00 feet to an iron pin, along and with a clockwise curve having a radius of 11,329.16 feet an arc distance of 199.49 feet to an iron pin, North 75 degs. 15 min. 8 sec. East 30.00 feet to an iron pin, along and with a clockwise curve having a radius of 11,359.16 feet an arc distance of 989.18 feet to an iron pin, South 80 degs. 14 min. 31 sec. West 20.00 feet, along and with a clockwise curve having a radius of 11,339.16 feet an arc distance of 149.75 feet to an iron pin, North 80 degs. 59 min. 56 sec. East 20.00 feet to an iron pin, along and with a clockwise curve having a radius of 11,359.16 feet an arc distance of 178.69 feet to an iron pin; thence leaving said right-of-way and running South 2 degs. 56 min. 51 sec. East 136.91 feet to an iron pin; running thence North 89 degs. 20 min. 47 sec. East 11.56 feet to an iron pin in the western right-of-way of N. C. Highway 55; running thence along and with said right-of-way as it makes a clockwise curve having a radius of 11,359.16 feet an arc distance of 2,729.39 feet to an iron pipe; thence leaving said right-of-way and running South 89 degs. 58 min. 17 sec. West 370.95 feet to an iron pin; thence North 89 degs. 47 min. 15 sec. West 252.22 feet to an iron pin; thence North 89 degs. 36 min. 45 sec. West 282.15 feet to an iron pin; thence North 89 degs. 30 min. 42 sec. West 138.24 feet to an iron pin; thence North 88 degs. 34 min. 40 sec. West 251.94 feet to an iron pin; thence North 89 degs. 14 min. 36 sec. West 74.68 feet to an iron pin; running thence along and with the eastern property line of property in Plat Book 97, page 97, Durham County Registry known as Century Oaks, North 0 degs. 28 min. 48 sec. West 2,361.79 feet to an iron pin having North Carolina grid coordinates of N = 798,244.358 and E = 2,031,731.165; running thence North 88 degs. 58 min. 38 sec. West 115.80 feet to an iron pin, running thence along and with the eastern property line of property now or formerly owned by North Hampton Development Co., Inc., North 0 degs. 7 min. 7 sec. East 1,005.80 feet to a point being the point and place of BEGINNING, containing 172.656 acres, more or less and being that property designated as Tracts 1 and 2 as shown on that plat and survey entitled property of Mack L. Vickers, Jr. as prepared by Norman A. Beaver, Registered Land Surveyor, dated

April 12, 1985 and shown on Map 1 of 2 and Map 2 of 2, recorded in Plat Book 109, Pages 128 and 129, Durham County Registry; to which plat and survey reference is hereby made for a more particular description of same.

SAVING AND EXCEPTING FROM THE ABOVE-DESCRIBED TRACTS OF LAND A PARCEL OF LAND DESCRIBED AS FOLLOWS:

BEGINNING at an iron stake on the western right-of-way of N.C. 55, said iron stake being at the Southeastern corner of Lot 45, Plat Book 31 at page 74, Durham County Registry, running thence along and with the said right-of-way of N.C. 55 South 19 degs. 8 min. 33 sec. East 330 feet to an iron; running thence South 59 degs. 53 min. 11 sec. West 502.46 feet to an iron; running thence South 0 degs. 17 min. 36 sec. West 360.75 feet to an iron; running thence North 89 degs. 42 min. 25 sec. West 200 feet to an iron; running thence North 0 degs. 17 min. 36 sec. East 410.6 feet to an iron; running thence South 89 degs. 47 min. 2 sec. East 166.95 feet to an iron; running thence North 0 degs. 30 min. 52 sec. East 261.47 feet to an iron; running thence North 54 degs. 45 min. 27 sec. East 436.97 feet to an iron on the western right-of-way of N.C. 55, the point and place of BEGINNING, and being all of Lot 1, containing 5.200 ac., more or less, and being the property conveyed by VIP-55 ASSOCIATES to PEACE MISSIONARY BAPTIST CHURCH by deed recorded in Real Estate Book 1250 Page 341, Durham County Registry; to which deed reference is hereby made for a more particular description of same.

TRACT THREE: BEGINNING at point thence East 19 chains to the Acadamised Road, thence with the acadamised Road 25 chains and 32 links to pine, thence West 9 chains and 25 links to a Blackjack; thence South to Aaron Markham Center, thence West with his line to a stake, thence North 25 degrees East to the beginning, and containing 70 acres more or less, during their natural life and at their death to Alma Herdon.

TRACT FOUR: BEING all of Lot 1B as shown on the Plat of THE PROPERTY OF LELA LEE BRANTLEY AND CHARLES R. GLENN dated December 4, 1974, by J. Watts Copley, Land Surveyor, and recorded in Plot Book 84 at page 30, Durham County Registry, to which plat reference is hereby made for a more particular description.

TRACT FIVE: LYING AND BEING on the west side of Cornwallis Road and bounded on its northern side by the southern line of the right-of-way of NORFOLK-SOUTHERN RAILROAD and bounded on its eastern side by Emerywoods Subdivision; and further bounded on its southeastern tip by lands of Donald T. Moore and its southern tip by lands of Albert E. and Georgetta Yellock, containing 60.235 acres, more or less.

TRACT SIX: BEING all of Tract Three , containing 2.96 acres, more or less, as shown on that plat entitled "Property of Mack Vickers Jr., et al." dated May 25, 1972 and prepared by George C. Love, Jr., Reg. Land Surveyor, and recorded in Book of Maps 77, page 72, Durham County Registry, to which plat reference is hereby made for a more particular description.

The property hereinabove described was acquired by Grantor by instruments recorded in the Durham County Register of Deeds Office in Book 21at page 234, Book 1514 at page 780, Book 77 at page 530 and Book 2249 at page 867, respectively.

TO HAVE AND TO HOLD the said land, together with all privileges and appurtenances as thereunto belonging unto the said Grantee, as its interest may appear, its successors and assigns, forever, in fee simple.

And the Grantor covenants with the Grantee that the Grantor is seized of the premises in fee simple, has the right to convey the same in fee simple, that title is marketable and free and clear of all encumbrances, and that Grantor will warrant and defend the title against the lawful claims of all persons whomsoever except for the exceptions hereinafter stated.

Title to the property hereinabove described is subject to the following exceptions:

2002 ad valorem taxes, easements, and other encumbrances of record.

IN WITNESS WHEREOF, the Grantor, has hereunto set his hand and affixed its seal the day and year first above written.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resource Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of city directory data. For each address, the directory lists the name of the corresponding occupant at year intervals.

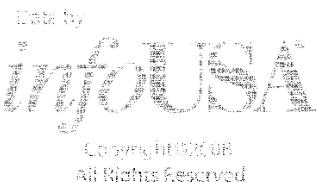

Business directories including city, cross reference and telephone directories were reviewed, if available, approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified, gathering information about properties within 1320 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information, Orr & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensor may be a violation of copyright.

Contact: Whitney Mcalpin

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Search Results:

Site Reconnaissance Worksheet

Site Reconnaissance Worksheet

Project #	2191157		
Address	2624 Hwy 55, Durham, NC		
Inspector Name/Date of Inspection	R. Rote/ G. Eller		04/17/19
Site contact name/Title/Years associated with Site	Richard Vickers	Owner	+50 years
Site Contact Phone#/email	Jerry Gambill (broker) (919) 417-7497 jgambill@pickett-spouse.com		
Site Size (acres)	Approx. 73 acres		
Nature of Site	Undeveloped Woodland		
Past Site Use (Evidence or per Site Contact)	Vacant/Undeveloped		
Nature of Area (circle one)	Suburban/residential		
Topography (If Sloping – Note Direction)	Generally flat/SE corner slope toward creek		
Nearest Body of Water (Note Distance and Direction)	Stratford Lake located approx.. 1 mile W of site		

Adjacent Properties (Address and Use):

North	HWY 55, Durham, NC / Commercial & Residential
East	HWY 55, Durham, NC / Residential & Undeveloped
South	Contravest PKWY, Durham, NC / Residential
West	Kirby St, Durham, NC / Residential

Adjacent Property Notes:

Limitations:

- | | | |
|---|---|---|
| <input type="checkbox"/> None | <input checked="" type="checkbox"/> Overgrown vegetation | <input type="checkbox"/> Topography |
| <input type="checkbox"/> Snow | <input checked="" type="checkbox"/> Size | <input type="checkbox"/> Material Storage |
| <input type="checkbox"/> Unaccompanied During Site Inspection | <input type="checkbox"/> Access (Note Inaccessible Structures): | |

Site Reconnaissance Worksheet

# of Structures:	Date of Construction
Building Size (sq.ft.)	No. Stories
Basement (full/partial)	Frame
Building Condition	
Site Tenants and Operations	Verizon cell tower located in center of Site.

Site Sketch (label north):

Site Reconnaissance Worksheet

Utilities Servicing the Site:

Electric: **Public available**

Heating Source: **NA**

Water Supply: **Public available**

Sewer/Septic: **NA**

Petroleum/Hazardous Substance

Yes

No **X**

Disposal Receipts (circle one) Yes No N/A

Type	Quantity/Storage Container Type	Location	Staining	Purpose

Additional Notes

Aboveground Storage Tanks

Yes No **X**

Note: Location, capacity, contents, usage, in-service (yes/no), fill port location, vent pipe location, leaks/stains/spills in vicinity, storage conditions – under asphalt, vaulted, under grassy area, fuel pumps)

AST Table

#	Capacity	Contents	Location	Storage Conditions	Usage

Notes:

Site Reconnaissance Worksheet

Underground Storage Tanks

Yes No

(i.e., vent pipes, fill ports, pumps, fill port covers)

(Note: Location, Type of Evidence, capacity, contents, usage, in-service (yes/no), fill port location, vent pipe location, leaks/stains/spills in vicinity, storage conditions – under asphalt, vaulted, under grassy area, fuel pumps)

UST Table

#	Capacity	Contents	Location	Storage Conditions	Usage

Evidence of the Potential Removal/Closure of Underground Storage Tanks

Yes No

(e.g., patches in pavement, piping, ect.)

(Note: Location, Type of Evidence, leaks/stains/spills in vicinity)

Strong, Pungent, or Noxious Odors

Yes No

(Note: Type and Source)

Pools of Liquid Likely to Contain Hazardous Substances

Yes No

Or Petroleum Products

(Note: Location, Potential Product/Hazardous Substance(s), Source)

Drums

Yes No

(Note: Location, Contents, Quantity, leaks/stains/spills in vicinity)

Site Reconnaissance Worksheet

Unidentified Substances or Containers

Yes _____

No **X**

(Note: Type and Quantity)

Parts Washers

Yes _____

No **X**

(Note: Type – Self-contained or Not, Location, Waste Disposal Receipts)

Oil Water Separator

Yes _____

No **X**

(Note: Location, Discharge Location, Type of Wastewater Discharged to OWS, Age, Service Provider, etc.)

Stains or Corrosion

Yes _____

No **X**

(Note: Location, Potential Product/Hazardous Substance(s), Source)

Floor Drains

Yes _____

No **X**

(Note: Location, Discharge Location, Type of Wastewater Discharged to Drain, Associated Oil/Water Separator)

Site Reconnaissance Worksheet

Sumps

Yes _____

No

(Note: Location, Discharge Location, Type of Wastewater Discharged to Sump)

Equipment Potentially Containing Polychlorinated Bi-phenyls

Yes _____

No

(Note: Location, Type – Pad/Pole Mounted, PCB-containing, Owner, Condition)

Elevators

Yes _____

No

(Note: Location, Hydraulic/Mechanical/Electric, Underground Components, Location of Reservoir)

Lifts/Lift Scars

Yes _____

No

(Note: Location, Hydraulic/Mechanical/Electric, Underground Components, Location of Reservoir)

Stained Soil/Pavement

Yes _____

No

(Note: Location, Apparent Type of Staining, Source)

Stressed Vegetation

Yes _____

No

(Note: Location, Source)

Site Reconnaissance Worksheet

Evidence of Solid Waste Disposal and/or FillingYes X

No _____

(e.g., mounding, piles, ect.)

(Note: Location, Contents, Staining, Odors)

There are several debris piles along the cell tower road. These piles contain mostly construction debris; wood, carpet, insulation, shingles, etc. One pile was observed to contain asbestos-cement siding panels.

Storm Drains/DitchesYes _____ No X

(Note: Location, Associated with Wastewater Treatment or Disposal, Discharge Location, Staining, Odors)

Underground Injection Well/Dry Well/Monitoring WellsYes _____ No X

(Note: Location, Associated with Wastewater Treatment or Disposal, Type of Wastewater Discharged To, Analytical Data Available)

Septic SystemsYes _____ No X

(Note: Location, Direction of Leach Lines, Type of Wastewater Discharged)

Potable Water WellsYes _____ No X

(Note: Location and Analytical Data Available)

Site Representative Interview

LaBella

Powered by partnership.

Project No. 2191157 Date of Interview: 4/17/19 Conducted by: rkrote

Address (tax # if undeveloped): 2624 Hwy 55, Durham, NC ID: 133810

Interviewee & Relationship to Site: Jerry Gambill, Broker interviewed owner, Richard Vickers
How long affiliated with Site: 40 + yrs
Land has been in the family

Title/Position/Relationship to Site Owner Owner Representative Former Owner Occupant [since 1920s](#)
 Former Occupant Neighbor Purchaser Seller Real estate agent
 Property Manager Other (explain):

Additional Contacts: _____

1. What is the purpose of this assessment? Selling the property Purchasing the property
 Construction loan Re-financing the property Other (explain):

2. Do you have a PROPERTY SURVEY MAP or OTHER MAPPING of the Site available?
 No Yes Unknown (if Yes, please provide if possible)

3. Number of building(s): **None** Total sq. ft. of building(s):
Acreage of Site: **Verizon cell tower in center of Site** Unknown NA

<u>Building #1/location:</u>	Sq. ft.	Construction Date:
<u>Building #2/location:</u>	Sq. ft.	Construction Date:
<u>Building #3/location:</u>	Sq. ft.	Construction Date:
<u>Building #4/location:</u>	Sq. ft.	Construction Date:

4. What is the CURRENT USE(S) of the Site (and/or Site Buildings if applicable) and DATES, if known? Unknown
Wood lot and cell tower site

5. What are the PAST USE(S) of the Site (and/or Site Buildings if applicable) and DATES of occupancy, if known? Unknown
wood lot, there is evidence of tree harvesting a decade or more ago.

6. Have any buildings been BURNED or DEMOLISHED on the Site? No Yes Unknown
Explain:

Was the Debris:
Burned on Site No Yes Unknown Buried on Site No Yes Unknown
Removed from Site No Yes Unknown
Explain:

Has the Site ever been developed with a residential structure? No Yes Unknown

7. Is the SITE or any ADJOINING PROPERTY CURRENTLY or PREVIOUSLY utilized as any of the following?
Dry Cleaning Facility No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

X-ray or Film Developing No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Is there a Metal Recovery System in Place? No Yes Unknown
Explain:

Car Repair Shop: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Paint/Body Shop: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Gasoline Station: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Industrial Property: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

8. What are the CURRENT and PREVIOUS USE(S) of the ADJOINING PROPERTIES?

Direction Current Use/Occupant Past Uses/Occupant

North: Church and residential

South: Residential

East: Undeveloped, residential and limited commercial

West: Residential

9. Is SANITARY WASTE WATER CURRENTLY or was PREVIOUSLY Generated and how is/was it Disposed of?

No Yes Unknown Discharge Point: Public System Private System Unknown
 Other (explain):

If PRIVATE SYSTEM where is the leach field currently located?

Is NON-SANITARY WASTE WATER CURRENTLY or was PREVIOUSLY Generated and how is/was it Disposed of?

No Yes Unknown Discharge Point: Public System Private System Unknown
 Other (explain):

If PRIVATE SYSTEM where is the discharge point currently located?

Are any of the following CURRENTLY or PREVIOUSLY located at the Site?

SEPTIC TANK: No Yes Unknown Location:

Dates of Usage:

LEACHFIELD: No Yes Unknown Location:

Dates of Usage:

INJECTION WELL: No Yes Unknown Location:

Dates of Usage:

DRY WELL: No Yes Unknown Location:

Dates of Usage:

Are any of the following CURRENTLY or PREVIOUSLY located at the Site?

FLOOR DRAINS: No Yes Unknown Location:
Discharge Point:

TRENCH DRAINS: No Yes Unknown Location:
Discharge Point:

SUMP PUMPS: No Yes Unknown Location:
Discharge Point:

STORM DRAINS: No Yes Unknown Location:
Discharge Point:

OTHER: No Yes Unknown Location:
Discharge Point:

Are any FLOOR DRAINS, TRENCH DRAINS, or SUMPS connected to an OIL/WATER SEPERATOR?

No Yes Unknown NA

Dates of Usage:

Location:

Have any drains been closed in place or sealed over? No Yes Unknown

If YES, date:

Location and explain:

10. Is the Site serviced with PUBLIC or PRIVATE WATER SYSTEMS and DATES of Connection, if known?

Type Date of Connection/Usage
 Public Unknown
 Well NA

Are there, or were there ever any OBSERVATION or MONITORING WELLS located on-Site?

No Yes Unknown NA

Location: Purpose: Dates of Usage/Installation:

11. Are ANY of the FOLLOWING located ON or ADJACENT TO the SITE? (Choose all that apply):

Type:	Location:	Type:	Location:
<input type="checkbox"/> Surface water		<input type="checkbox"/> Pits	
<input type="checkbox"/> Ponds		<input type="checkbox"/> Lagoons	
<input checked="" type="checkbox"/> Creek		<input type="checkbox"/> Drainage Ditch	
<input type="checkbox"/> Rivers		<input type="checkbox"/> Lakes	
<input type="checkbox"/> Unknown		<input type="checkbox"/> No	

12. What type of heating does this property CURRENTLY have, if any?

Choose all that apply and identify the associated building(s) and dates of connection if applicable.

Type	Date(s) of Connection/Usage	Type	Date(s) of Connection/Usage
<input type="checkbox"/> Natural Gas		<input type="checkbox"/> Oil	
<input type="checkbox"/> Propane	NA	<input type="checkbox"/> Radiant	
<input type="checkbox"/> Coal		<input type="checkbox"/> Hot Water	
<input type="checkbox"/> Not Heated		<input type="checkbox"/> Unknown	
<input type="checkbox"/> Other (explain)			

If oil: How is/was the oil stored above ground storage tank underground storage tank (see Question 20)
Location:

What type of heating has PREVIOUSLY been used at this property, if any?
Choose all that apply and identify the associated building(s) and dates of connection if applicable.

Type	Date(s) of Connection/Usage	Type	Date(s) of Connection/Usage
<input type="checkbox"/> Natural Gas		<input type="checkbox"/> Oil	
<input type="checkbox"/> Propane	NA	<input type="checkbox"/> Radiant	
<input type="checkbox"/> Coal		<input type="checkbox"/> Hot Water	
<input type="checkbox"/> Not Heated		<input type="checkbox"/> Unknown	
<input type="checkbox"/> Other (explain)			

If oil: How is/was the oil stored above ground storage tank underground storage tank (see Question 20)
Location:

13. Who Supplies ELECTRIC SERVICE to the Site?

Duke National Grid NYSEG Unknown NA
 Other:

14. What is the nature of SOLID WASTE Generated at the Site and Disposed of from the Site (including hazardous)?

Type of Waste?	How is it stored?	Who collects the waste and when?
NA	Several debris piles observed on edge of cell tower road.	

15. To the best of your knowledge, have you ever GENERATED or TRANSPORTED HAZARDOUS WASTE from the Site?

No Yes Unknown (if Yes, please provide Manifests)
Explain:

16. Do you TREAT or DISPOSE of any WASTE MATERIALS on-Site? (i.e., land filling, neutralization, incineration)

No Yes Unknown
Explain:

17. Has any OTHER ENTITY ever been allowed to DUMP, STORE, DISPOSE, TRANSPORT, BURY, INCINERATE, OR LANDFILL any materials at the Site? No Yes Unknown

Who?	What?	When?	Location:
------	-------	-------	-----------

18. Has FILL DIRT been brought onto the Site from an UNKNOWN ORIGIN OR CONTAMINATED SITE?

No Yes Unknown
Explain:

19. Are there areas of the Site in which any of the following were or are located? Unknown No

Type:	Location:	Type:	Location:
<input type="checkbox"/> Gravel		<input checked="" type="checkbox"/> Debris	construction debris dumped along cell tower road
<input type="checkbox"/> Construction Materials		<input type="checkbox"/> Tree/Brush	
<input type="checkbox"/> Other (explain):			

20. Are there CURRENTLY or PREVIOUSLY any ABOVE (AST) or UNDERGROUND (UST) STORAGE TANKS located at the Site? No
Yes Unknown Are they REGISTERED with the NYSDEC? No Yes Unknown

<u>Tank Type (AST/UST)</u>	<u>Capacity (Gallons)</u>	<u>Product</u>	<u>Installation Date</u>	<u>Removal/Closure Date</u>
----------------------------	---------------------------	----------------	--------------------------	-----------------------------

- 1.
- 2.
- 3.
- 4.
- 5.

Are there any LEAK DETECTION DEVICES in place? No Yes Unknown
Explain:

Have any TANKS been: Unknown No Date(s):

REMOVED from the Site

Explain: **No**

Location:

CLOSED in place at the Site **No**

Explain:

Location:

Is Documentation/Closure Reports /Analytical Data Available? No Yes Unknown
(Please provide copy)

Has any CONTAMINATION been identified or REMEDIATION been required at the Site; related to CURRENT OR PRIOR TANKS?

No Yes Unknown

Explain:

Has any CONTAMINATION been identified or REMEDIATION been required at a neighboring property; related to CURRENT OR PRIOR TANKS? No Yes Unknown

Explain:

21. What type of CHEMICALS are CURRENTLY or have PREVIOUSLY been STORED or UTILIZED on Site?

<u>Type:</u>	<u>Usage:</u>	<u>Storage Container/Capacity:</u>	<u>Disposal Method:</u>
NA			

Are MSDS sheets readily available for these chemicals? No Yes Unknown (if Yes, please provide copies)

22. Have there been any SPILLS, UNPERMITTED DISCHARGES, or RELEASES of HAZARDOUS or CONTAMINATED MATERIALS or PETROLEUM PRODUCTS at or in the vicinity of the Site? No Yes Unknown

<u>What?</u>	<u>When?</u>	<u>Location:</u>
No		

23. Are you AWARE if the SITE is listed as any of the following -Check all that Apply: No
(please provide information for 'yes' responses)
Regulatory Listing: Explain:
NCDEQ Spill Site
National Priority or Delisted Priority List
CERLCIS Site
CERCLIS NFRAP Site
RCRA Generator Facility
RCRA Treatment/Storage/Disposal Facility
State or Local Landfill
National Response Site
Hazardous Waste Disposal Site
Brownfield or Voluntary Cleanup Site
Institutional or Environmental Control Site
Hazardous Substance Site
24. To the best of your knowledge, do you have any FEDERAL, STATE, or LOCAL PERMITS for the following?
None Air Emissions SPDES (waste water discharge)
Explain:
25. Has the Site ever been the subject of an ENFORCEMENT ACTION by any FEDERAL, STATE, or LOCAL agency regarding ENVIRONMENTAL ISSUES? No Yes Unknown
Explain and provide DATES and any Documentation:
26. Is the Site presently under any FEDERAL, STATE, or LOCAL CONSENT ORDERS, DECREES, or CAUSE of ACTION?
No Yes Unknown
Explain and provide DATES and any Documentation:
27. Are you aware of any ENVIRONMENTAL LIENS on the Site? No Yes Unknown
Explain:
28. Are you aware of any LAND USE or ACTIVITY LIMITATIONS that are in place on the Site or have been FILED or RECORDED in a registry? No Yes Unknown
Explain:
29. Are you aware of any KNOWLEDGE or INDICATORS related to the Site that point to the PRESENCE or LIKELY PRESENCE of CONTAMINATION? No Yes Unknown
Explain:
30. Are you aware if the PURCHASE PRICE of this Site reasonably reflects the fair market value of the property?
No Yes Unknown NA (Site is not being sold at this time)
Explain:
31. Has there ever been PREVIOUS Phase I Environmental Site Assessments or environmental audits performed for the Site?
No Yes Unknown (if Yes, please provide copies if possible) [Copy in project folder](#)
If yes, by Whom? Date?
Concerns identified: No Yes Unknown
Explain:

32. Is the ABSTRACT OF TITLE for the Site available? No Yes Unknown
(If Yes, please provide if possible or provide name and contact information for attorney that may have report)

33. Do you have any additional information or specialized knowledge or experience regarding the Site?
No Yes Unknown
Explain:

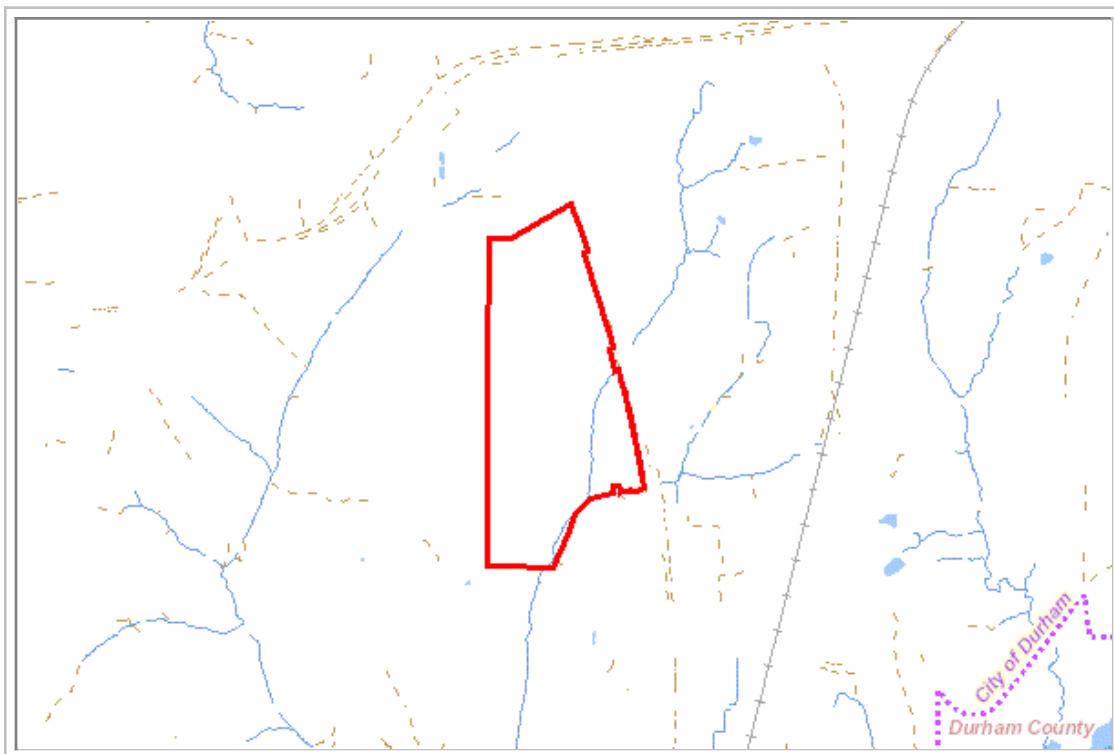

34. Do you have any information related to the future use of the Site? No Yes Unknown
Explain: **Residential**

35. Has the Site ever been utilized agriculturally? No Yes Unknown
If so, when?:
Explain: **Farmed in the 1950s**

Public Records Information Request – Regional Office Routing Form

This form is to assist in the identification of public records in the regional office for a specific project, permit, property and/or facility. After circulation of this routing form, the requestor will be notified if records exist and provided the appropriate division(s) contact information. [Learn more](#) about public records in North Carolina.

Note: Use of this form is optional. Any format for a public records request is acceptable. However, responses by agencies are limited by the level of detail and quality of information provided by the requestor. Additionally, information volunteered by the requestor may help fill the request more efficiently.

Requestor Information:

Name (Last, First, and Middle Names): Hennigan, Owen, William **Date:** (3/28/2019)

Address (Street Number and Name): 300 State Street Suite 201 (LaBella Associates)

City: Rochester **State:** NY **Zip:** 14614

Daytime Telephone: (585)295-6671 **Email:** OHennigan@LabellaPC.com

Information Requested:

Please note that inclusion of current and historic site information will better facilitate our records search.

Identify the documents, records or information you are seeking: Any records of environmental enforcement; permits regarding environmental matters; information on any environmental remediation, hazardous materials, solid materials, and land use restrictions present on the Site including any existing engineering controls and previous environmental law enforcement regarding these issues. Any information on environmental investigation, including water, air, and any spills reported on the Site. Records for any Petroleum Bulk Storage tanks, Brownfield Cleanup Programs, and Voluntary Cleanup Programs on the Site.

Physical location of subject site (include city and county): 2624 Highway 55 Durham, North Carolina 27713

Property Owner(s): Vickers Land Company LLC

Project Name: 2191157

Facility Name: Click here to enter text.

Project ID Number/Permit Number/Facility ID Number (include with which agency this coincides):

0739-01-29-2855

Provide any unique identifiers which exist on the property (e.g. wells, ponds, dams, UST's, current and previous land uses, etc.): Click here to enter text.

Provide below any additional information you feel may be helpful in the records search (e.g. map, PIN, Latitude & Longitude, etc.):

Click here to enter text.

Email or fax the completed form to the appropriate regional staff member.

- Asheville Region - Alison Davidson, Phone: (828) 296-4698, Fax: (828) 299-7043; alison.davidson@ncdenr.gov
- Fayetteville/Raleigh Region - David Lee, Phone: (919) 791-4204, Fax: (919) 571-4718; david.lee@ncdenr.gov
- Mooresville/Winston-Salem Region – Paul Williams, Phone: (336) 776-9631, Fax: (336) 776-9797; paul.e.williams@ncdenr.gov
- Washington Region - Lyn Hardison, Phone: (252) 948-3842, Fax: (252) 975-3716; lyn.hardison@ncdenr.gov
- Wilmington Region - Cameron Weaver, Phone: (910) 796-7265, Fax: (910) 350-2004; cameron.weaver@ncdenr.gov

File Locations for DEQ Central Offices - Important Please Read:

This form does not identify public records which may exist in the central offices of DEQ. The information below will guide you in accessing ***additional files which may be located in the Raleigh central offices.***

- **Division of Air Quality:** For state air quality records, call (919) 707-8400 for appointment times.
- **Division of Waste Management – File Room Procedures**

- Brownfields Program: For access to a specific Brownfields Program file, please call [Shirley Liggins](#) at (919) 707-8272.
- Hazardous Waste: For access to a specific Hazardous Waste Section file, please call [Scott Ross](#): (919) 707-8272.
- Solid Waste Section: For access to a specific Solid Waste Section file, please call [Carmen Johnson](#): (919) 707-8271.
- Superfund Section: For access to a specific Superfund Section file, please call [Scott Ross](#): (919) 707-8272.
 - [Superfund Documents available online](#)

More information about file access procedures in the N.C. Department of Environmental Quality can be found online at <http://deq.nc.gov/about/divisions/environmental-assistance-customer-service/deacs-permit-guidance/faq#fileaccess>. If you make an appointment to review files, be sure to inquire about copying procedures, directions to buildings, parking and visitor passes.

Disclaimer: DEQ staff will fulfill this request in accordance with the requirements of the North Carolina Public Records Act ("the Act"), N.C. Gen. Stat. § 132-1 *et seq.*, based on the information received from the requester. While the Act addresses the availability of records, the Act does not address the accuracy of those records. Accordingly, the production of records pursuant to the Act does not insure that the records (many of which have been previously submitted to DEQ from outside sources) are accurate, complete or current with regard to all environmental issues at a property. The scope of the search for records is determined by the data provided by the requester; limited or incomplete data may constrain and limit the discovery and production of available records. To obtain the best information available, please provide as much specific information as possible about the topic, location and type of data being requested.

To: Hennigan, Owen
Subject: RE: [External] FOIL request
Attachments: DWM Procedure for Records Access Sept 2018 rev..docx

Owen,

Thank you for your request for information regarding the following location:

2624 Highway 55 Durham, North Carolina 27713

In that regard, please reference the first two pages of the Regional Office Routing Form for information pertaining to accessing files in the Central Offices. In addition, I am providing a document prepared by Mark Powers, UST Section Supervisor, which provides information on the UST records access Procedure.

As you will see in the attached document, there are several databases accessible online. Of particular note is the Division of Waste Management online locator tool. The link for this tool may be found on the last page of the attachment.

Thank you,

David

User Interview

USER QUESTIONNAIRE

Project No. _____ Date: 4/1/19

Site Name/ Address: Towns at Courtney Creek

Site Contact (to arrange site visit/conduct Site owner interview): Name: Fred Scheckell

Phone Number: 710.459.8401 Email Address: fred@tenoaksrealty.com

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the *user* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must be conducted by EPA Brownfield Assessment and Characterization grantees. The *user* should provide the following information to the *Environmental Professional*. Failure to conduct these inquiries could result in a determination that "*all appropriate inquiries*" is not complete.

User (Print Name): Fred Scheckell
Title: Member, Ten Oaks Realty LLC
Signature: [Signature]

Information regarding these questions was obtained from the following parties (if applicable):

Purpose of this Assessment: Selling the property Purchasing the property Construction loan
 Re-financing the property Other (explain): _____

1.

Title Records

Land title records (or judicial records where appropriate, see Note 1 below) are filed under federal, tribal, state or local law and should be reviewed to identify environmental liens or activity and use limitations (AULs), if any, that are currently recorded or filed against the *property*. Are land title records available for review? No Yes (If yes, please provide.) Unknown

Note 1 – In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases, judicial records must be searched for environmental liens and AULs.

2.

Environmental liens that are filed or recorded against the property (40 CFR 312.25)

Did a search of *recorded land title records* (or judicial records where appropriate, see Note 1 above) identify any environmental liens filed or recorded against the *property* under federal, tribal, state or local law?

No Yes Unknown

Based on review of readily available information:

3. **Activity and land use restrictions (AULs) that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and (vi))**

Did a search of *recorded land title records* (or judicial records where appropriate, see Note 1 above) identify any AULs, such as *engineering controls*, land use restrictions, or *institutional controls* that are in place at the *property* and/or have been filed or recorded against the *property* under federal, tribal, state, or local law?

No Yes Unknown

Based on review of readily available information: _____

4. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)**

Do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the *property* or and *adjoining property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No Yes Unknown

Based on review of readily available information: _____

5. **Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29)**

Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?

No Yes Unknown N/A- there is no transfer of ownership

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

No Yes Unknown

Based on review of readily available information: _____

6. **Commonly known or reasonably ascertainable information about the property (40 CFR 312.30)**

Are you aware of any commonly known or reasonably ascertainable information about the *property* that could help the *Environmental Professional* to identify conditions indicative of releases or threatened releases? For example:

(a) Do you know of the past uses of the *property*?

No Yes Unknown

Based on review of readily available information: _____

(b) Do you know of specific chemicals that are present or once were present at the *property*?

No Yes Unknown

Based on review of readily available information: _____

(c) Do you know of spills or other chemical releases that have taken place at the *property*?

No Yes Unknown

Based on review of readily available information: _____

(d) Do you know of any environmental cleanups that have taken place at the *property*?

No Yes Unknown

Based on review of readily available information: _____

7. **The degree of obviousness of the presence or likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)**

Based on your knowledge and experience related to the *property*, are there any obvious indicators that point to the presence or likely presence of releases at that *property*?

No Yes Unknown

Based on review of readily available information: _____

Please provide attachments if necessary to explain any answers to the above questions.

LaBella Associates, P.C. (LaBella) has been contracted by NVR, Inc. to perform an All Appropriate Inquiry (AAI) Phase I Environmental Site Assessment (ESA) report at 2624 Highway 55, City of Durham, Durham County, North Carolina, 27713 (AKA Vickers Site), hereinafter referred to as the "Site".

The findings of this report are based upon a preliminary assessment of the condition of the Site within the Scope of Work and objective described below as of the date of our site observations and documentation review. This assessment was prepared according to the American Society for Testing and Materials (ASTM) Standard Practice E1527-13 to satisfy the due diligence requirements set for NVR, Inc. The information contained in this report is considered privileged and confidential and is intended solely for the use of NVR, Inc., as it applies to the Site.

1.0 EXECUTIVE SUMMARY

Based on the results of this assessment, no apparent Recognized Environmental Conditions (RECs), Historical Recognized Environmental Conditions (HRECs), Controlled Recognized Environmental Condition (CRECs), de minimis conditions or business environmental risks have been identified associated with the Site at this time.

2.0 INTRODUCTION

2.1 Purpose

This investigation was requested to identify, to the extent feasible, Recognized Environmental Conditions in connection with the Site, including the identification of conditions indicative of releases and threatened releases of hazardous substances on, or in the vicinity of the Site. This AAI Phase I ESA report was conducted in general conformance with the Scope and Limitations of ASTM Standard Practice E1527-13.

The performance of ASTM Standard Practice E1527-13 is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs and the potential liability for contamination to be present in connection with the Site recognizing reasonable limits of time and cost. It is also intended to add protection from CERCLA liability for innocent landowner defense, bona fide prospective purchaser, contiguous property owners and grantors who meet certain statutory requirements.

The objective of this AAI Phase I ESA was to determine the following, using our professional judgment, by means of the Scope of Work hereafter described.

1. A general description of the Site.
2. The current and historical usage of the Site and adjoining properties.
3. Whether RECs exist or have the potential to exist at the Site.
4. Whether Site conditions suggest further evaluation based on the presence or probable presence of such RECs.
5. Provide information which may assist NVR, Inc. in evaluating the fair market value of the Site.

The term Recognized Environmental Condition (REC) is defined by ASTM as the presence or likely presence of any hazardous substances (as currently defined by the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) including pollutants and contaminants) or petroleum products (excluded from the definition of hazardous substance and controlled substances; or the presence of petroleum products as defined by the Resource Conservation and Recovery Act, the Oil Pollution Act of 1990, and the Clean Water Act) in, on, or at a property due to release to the environment, under conditions indicative of a release to the environment, or under conditions that pose a material threat of a future release to the environment.

The term “Historical Recognized Environmental Condition” is defined by ASTM as a past release of any hazardous substance or petroleum product that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

The term “Controlled Recognized Environmental Condition” is defined by ASTM as resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

The term “REC” is not intended to include “de minimis” conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis conditions are not Recognized Environmental Conditions or Controlled Recognized Environmental Conditions.

The term “data gap” means lack or inability to obtain information required by the standards and practices as defined in ASTM Standard Practice E1527-13 despite good faith efforts by the Environmental Professional and Environmental Analyst.

The term “Environmental Professional” is defined by ASTM as a person who possesses sufficient specific education, training, and experience necessary to exercise professional judgement to develop opinions and conclusions regarding conditions indicative of releases or threatened releases on, at, in or to a property, sufficient to meet the objectives and performance factors defined in the ASTM Standard Practice E1527-13 and §312.20 of 40 CFR §31.

2.2 Scope of Work

The major components of an AAI Phase I ESA report in conformance with ASTM Standard Practice E1527-13 include a visual inspection of the Site and adjoining properties; interviews and review of documents from past and present owners, occupants, managers, representatives and neighbors to the extent necessary; interviews with tribal and local government agency representatives; review of tribal, local and state records relative to the Site; and a review of tribal, local, state and federal standard environmental record sources relative to the Site. The findings and conclusions presented in this report are based on information gathered and limitations set forth in this report.

The Scope of Work performed in this assessment is limited to the areas described as follows:

1. Interview with the Owner, Mr. Richard Vickers, to evaluate the Site for the potential for environmental contamination to be present at the Site. Mr. Vickers has reportedly been associated with the Site for approximately fifty years.
2. Interviews with and/or record reviews of each of the following to obtain information directly regarding environmental concerns at or in the immediate vicinity of the Site, which is available directly by file or through general knowledge of the individual being interviewed. Information sources include:
 - a. United States Environmental Protection Agency (USEPA)
 - b. North Carolina Department of Environmental Quality (NCDEQ) Raleigh/Fayetteville Regional Office; Division of Solid and Hazardous Waste, Division of Water, Legal Division
 - c. Durham County Department of Health (DCDOH)
 - d. City of Durham Fire Marshal, Code Enforcement Officer, Assessor, and Clerk
3. Review of the following federal, state, and local environmental records and databases to aid in the identification of conditions at or related to the Site and property, adjacent to or in the immediate vicinity of the Site, including:
 - a. USEPA National Priority List (NPL) – 1.0 mile
 - b. USEPA Delisted NPL – 0.5 mile
 - c. USEPA Superfund Enterprise Management System (SEMS) and SEMS Archived Sites – 0.5 mile
 - d. USEPA Resource Conservation and Recovery Act (RCRA) Corrective Action Sites (CORRACKTS) Treatment, Storage, and Disposal Facility Listing (TSD) – 1.0 mile
 - e. USEPA RCRA non-CORRACKTS TSD – 0.5 mile
 - f. USEPA RCRA Large, Small and Conditionally Exempt Small Quantity Generator Listing – Site and adjoining properties
 - g. National Response Center Emergency Response and Notification System Listing (ERNS) – Site only
 - h. Federal, state, and local Institutional Controls/Engineering Controls and Land Use Restrictions - Site only
 - i. NCDEQ Registry of Hazardous Substance Disposal Sites (HSDS)(state equivalent of NPL Sites) – 1.0 mile
 - j. NCDEQ Registry of Brownfield Cleanup Program (BCP) and Voluntary Cleanup Program (VCP) Sites – 0.5 miles
 - k. NCDEQ Inactive Hazardous Sites Inventory (SHWS) (state equivalent of SEMS Sites) – 1.0 mile
 - l. NCDEQ Permitted Solid Waste Disposal Facilities – 0.5 mile
 - m. Local Inventory of Waste Disposal Sites – 0.5 mile
 - n. NCDEQ Listing of Registered Storage Tanks Facilities – Site and adjoining properties
 - o. NCDEQ Listing of Leaking Storage Tanks (LUST)– 0.5 miles

- p. United States Geological Survey (USGS) Topographic Quadrangle Map Southwest Durham, North Carolina
 - q. United States Department of Agriculture (USDA) Durham County Soil Survey obtained from the Natural Resource Conservation Service (NRCS) website
 - r. Deed of the property dated September 3, 2002
 - s. Sanborn Fire Insurance maps
 - t. Aerial photographs of the area
 - u. Historical topographic maps
 - v. Local street directories
4. Site visit on October 5, 2017 by Mr. Richard Rote of LaBella to photograph the Site and to visually identify areas of concern as defined in the agreement.
 5. Completion of LaBella's AAI Phase I ESA Site Reconnaissance Report.
 6. Completion of a User Questionnaire completed by Mr. Britt Spivey of NVR, Inc.

2.3 Subsurface Risks/Unanticipated Hazardous Materials

This work for this report has been performed in accordance with generally accepted environmental engineering practices for the applicable region. The conclusion and recommendations of this report are based upon the opinion and judgment of an Environmental Professional (EP), and are dependent upon LaBella's knowledge, information supplied by the present owner and managers of the Site, and data and information solicited from governmental agencies. LaBella makes no other warranty or representation, either expressed or implied, nor is one intended to be included as part of its services, proposals, contracts, or reports.

In addition, LaBella cannot provide guarantees, certifications, or warranties that the property is or is not free of environmental impairment without a subsurface investigation involving drilling, vapor analysis, laboratory soil analysis, groundwater monitoring well installation, and laboratory groundwater analysis. Even with such a program, the data and samples from any given soil boring or monitoring well will indicate conditions that apply only at that particular location, and such conditions may not necessarily apply to the general Site as a whole.

2.4 *Significant Assumptions*

As a result of the unavailability or lack of receipt of information the following assumptions were made in order to complete the Scope of Work in the time frame desired by NVR, Inc.

- Groundwater flow direction in the vicinity of the Site was estimated based on review of area topographic maps. Determination of site-specific groundwater flow direction typically requires installing at least three groundwater monitoring wells, surveying the wells, and collecting groundwater elevation data (refer to Section 3.2).
- Due to the limited timeframe available to conduct this assessment, not all responses have been received from Freedom of Information Law (FOIL) requests that were submitted as a part of this report as of the date of this report submission. Any pertinent information obtained as part of the FOIL requests will be included in a Letter of Addendum (refer to Section 7.0).

As stated in the Agreement, NVR, Inc. acknowledges these assumptions and hereby agrees to release and hold LaBella harmless from any liability arising from or relating to any conclusions made or not made based on these assumptions.

2.5 *Limitations and Exceptions of Assessment*

ASTM Standard Practice E1527-13 expressly recognized the fact that no ESA can wholly eliminate uncertainty regarding the potential for RECs in connection with a property. LaBella's work is intended to reduce, but not eliminate, uncertainty regarding the potential for RECs in connection with the Site, and its Scope of Work reflects recognition of the reasonable limits of time and cost.

The actual presence of radon, lead-based paint, contaminants in drinking water [e.g., lead, volatile organic compounds (VOCs), "perfluorinated" compounds (PFCs), etc.], mold-related issues, electromagnetic frequencies, asbestos-containing building materials, polychlorinated biphenyl (PCB) caulk, wetlands, cultural and historic resources, ecological resources, and endangered species are not included in the Scope of Work of this assessment. Additionally, regulatory compliance, industrial hygiene, health and safety, indoor air quality and drinking water quality are not included in the Scope of Work of this assessment. Should NVR, Inc. want these services, LaBella can complete them; however, they are not included in the Scope of Work of the Phase I ESA.

The site visit was also limited to visual observations within the perimeter of the Site and other accessible areas only. Visual observations were limited at the time of the site visit due to vegetative growth and the size of the Site. Areas of the Site that were inaccessible were left to the judgment and discretion of the Environmental Analyst conducting the site visit. At the time of the site visit, a representative portion of the Site was visually inspected.

2.6 *Special Terms and Conditions*

NVR, Inc. and LaBella have agreed that the Scope of Work described in Section 2.3, and the Limitations and Exceptions described in Section 2.5 above, are acceptable to you and that to the fullest extent permitted by law, LaBella shall not be liable to you for limiting its investigation to the Scope of Work described. Based on the engagement and Scope of Work agreed upon, our evaluation of the Site is as presented herein.

2.7 User Reliance

NVR, Inc. may rely upon the findings of this report and should be aware of the agreed upon Scope of Work and the limitations associated with this Scope of Work.

3.0 SITE DESCRIPTION

The Site consists of one tax parcel (Parcel Reference #133810; PIN #0739-01-29-2855) located to the west of Apex Highway/State Route 55 and to the east of Kirby Street. The Site consists of 73.441 acres of undeveloped land. The central portion of the Site is occupied by a cell tower. The Site is currently owned by Vickers Land Company LLC. The adjacent properties include commercial and residential development along with areas of undeveloped land.

3.1 Site Location and Legal Description

The parcel that comprises the Site is outlined in the table below. Property boundaries for the purpose of this assessment were obtained from the Durham County GIS website. A map depicting the tax parcel that comprises the Site is located in the Figures and Photographs Appendix of this report.

Legal Address	Parcel Reference Number	PIN Number	Property Use Code	Acreage
2624 Highway 55	133810	0739-01-29-2855	99020 – Forestry	73.441

3.2 Site and Vicinity Characteristics

The Site is located within a suburban area. According to the 7.5-minute Southwest Durham, North Carolina quadrangle USGS Map, the Site consists of sloping land to the southeast. The USGS map indicates that the nearest water body is a tributary of Northeast Creek North Prong, located on the southeastern portion of the Site. Based on interpretation of the USGS topographic map, groundwater flow at the Site appears to be to the south. According to the USDA Durham County Soil Survey, soils at the Site consist mainly of White Shore and Mayodan sandy loam. Soils of the White Shore and Mayodan series are characterized by deep, moderately well drained soils formed in residuum weathered from Triassic materials of the Piedmont uplands.

3.3 Present Ownership and Use

Based on the Durham County Tax Administration website, the Site is currently owned by Vickers Land Company LLC. The Site consists of undeveloped land.

3.4 Site Improvements

3.4.1 Structures and Improvements

The Site is currently undeveloped and therefore unimproved.

3.4.2 Roads

The Site is bordered by the following public thoroughfares.

Direction	Public Thoroughfare
East	Apex Highway/State Route 55
West	Kirby Street

3.4.3 Current Site Utilities

The Site is currently undeveloped and therefore not connected to site utilities.

3.4.4 Current Use of the Adjoining Properties

The Site is bordered by the following properties.

Direction	Occupant (Address)
North	Peace Missionary (2608-2616 Highway 55)
East beyond Apex Highway/State Route 55	Undeveloped (2448-2458 South Dalston Avenue) Warehouse (2532-2534 Whilden Drive) Undeveloped (2543 Whilden Drive)
South	Residential (2604-2720 Wyntercrest Lane) Residential (3119-3127 Courtney Creek Boulevard)
West beyond Kirby Street	Residential (1023-3209 Kirby Street)

4.0 USER PROVIDED INFORMATION

In accordance with the ASTM E1527-13, a “User” is defined as the party seeking to complete an environmental site assessment of the property. If the user is aware of any specialized knowledge or experience that is material to RECs in connection with the Site, it is the user's responsibility to communicate any information based on such specialized knowledge or experience to the environmental professional. The User Questionnaire was completed by Britt Spivey of NVR, Inc. A copy of the User Questionnaire is included in Appendix 7.

4.1 Title Records

According to the ASTM Standard Practice E1527-13, “the user should either engage a title company or title professional to undertake a review of reasonably ascertainable land title records and lien records for environmental liens or activity and use limitations currently recorded against or relating to the property or to negotiate such an engagement of a title company or title professional as an addition to the Scope of Work to be performed by the Environmental Professional.”

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Are land title records available for review?	The User reported land title records are not available for review.

4.2 Environmental Liens or Activity and Use Limitations

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Did a search of <i>recorded land title records</i> identify any environmental liens filed or recorded against the <i>property</i> under federal, tribal, state or local law?	The User did not report environmental liens currently recorded against or relating to the property. In addition, the User did not report any activity or use limitations currently recorded against or relating to the property.
Did a search of <i>recorded land title records</i> identify any AULs, such as <i>engineering controls</i> , land use restrictions or <i>institutional controls</i> that are in place at the <i>property</i> and/or have been filed or recorded against the <i>property</i> under federal, tribal, state or local law?	The User indicated that the Site is zoned for residential, community commercial or office institutional usage.

4.3 Specialized Knowledge

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Does the <i>User</i> of this <i>ESA</i> have any specialized knowledge or experience related to the <i>property</i> or nearby properties? For example, is the <i>User</i> involved in the same line of business as the current or former <i>occupants</i> of the <i>property</i> or an <i>adjoining property</i> so that the <i>User</i> would have specialized knowledge of the chemicals and processes used by this type of business?	The User does not have any specialized knowledge or experiences related to the property or nearby properties.

4.4 Commonly Known or Reasonably Ascertainable Information

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Is the <i>User</i> aware of commonly known or <i>reasonably ascertainable</i> information about the <i>property</i> that would help identify conditions indicative of releases or threatened releases?	The User is unaware of commonly known or reasonably ascertainable information about the property that would help to identify conditions indicative of releases or threatened releases.
Based on the <i>User's</i> knowledge and experience related to the <i>property</i> are there any <i>obvious</i> indicators that point to the presence or likely presence of releases at the <i>property</i> ?	Based on the User's knowledge and experiences related to the Site, the User of this ESA is not aware of obvious indicators that point to the presence or likely presence of contamination at the Site.

4.5 Valuation Reduction for Environmental Issues

ASTM Standard Practice E1527-13 User Questionnaire Question	Reported by User
Does the purchase price being paid for the <i>property</i> reasonably reflect the fair market value of the <i>property</i> ?	The User did not report a below fair market value.
If the <i>User</i> concluded that there is a difference, has the <i>User</i> considered whether the lower purchase price is because contamination is known or believed to be present at the <i>property</i> ?	The User did not report a below fair market value.

4.6 Reason for Performing Phase I ESA

According to ASTM 1527-13, either the User shall make known to the environmental professional the reason why the User wants to have the Phase I ESA preformed or, if the User does not identify the purpose of the Phase I ESA, the environmental professional shall assume the purpose is to qualify for the Landowner Liability Protections under the Brownfields Amendments. The User reported the Phase I ESA was performed as part of a potential purchase.

5.0 STANDARD ENVIRONMENTAL RECORD SOURCES – FEDERAL AND STATE

The government records search included a review of federal, state, and local government databases of known or suspected inactive hazardous waste sites; petroleum and chemical bulk storage tank sites; reported spills, including leaking underground storage tanks (USTs); and hazardous waste generation sites. Environmental Data Resources Inc. (EDR), an independent research firm, was contracted to perform an ASTM compliant government records search. The EDR report is included in Appendix 1.

5.1 Site Listings

No regulatory listings were identified associated with the Site.

5.2 Adjoining Property Listings

Adjacent East – 2532 Whilden Drive

One RCRA NLR listing (USDEPA Handler ID: NCR000139824) was identified associated with the east adjacent property, addressed as 2532 Whilden Drive. A copy of the listing is included in Appendix 1. The property is currently occupied by Kuehne & Nagel Logistics/medics storage facility. The apparent flow of groundwater at the property appears to be to the west towards Northeast Creek North Prong and the Site. The property was formerly a listed RCRA Large Quantity Generator (LQG) in 2005. The presence of the property on this listing implies that the property generated more than 1,000 kilograms of hazardous waste per month. This listing does not imply the release of hazardous waste has occurred to the subsurface of the property. According to the listing, the facility handled waste associated with general warehousing and storage and specific types of wastes generated are not listed. This listing does not imply the release of hazardous waste has occurred to the subsurface of the property.

Based on the inactive status of the RCRA listing and the lack of LUSTs/spills associated with the property, there are no apparent RECs related to regulatory records identified associated with the east adjacent property at this time.

5.3 ASTM Standard Regulatory Database Listings

5.3.1 USEPA National Priority List (last updated July 7, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.2 USEPA Delisted National Priority List (last updated July 7, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.3 USEPA SEMS (last updated July 21, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.4 USEPA SEMS Archived (last updated July 28, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.5 USEPA RCRA CORRACTS (last updated September 26, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	1.0 mile	No listings	No listings

5.3.6 RCRA Treatment, Storage, and Disposal Facilities – non-CORRACTS (last updated September 26, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.7 USEPA RCRA Generators (last updated September 26, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # - CESQG/SQG/LQG (Address)
1	Site and Adjoining Properties	1	Kuehne Nagel Logistics/Medics - NCR000139824-NLR (2532 Whilden Drive)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/Rationale
1	Adjacent – East	West – Towards the Site	No	Refer to Section 5.2 for additional information.

A copy of the listing is included in Appendix 1.

5.3.8 National Response Center ERNS (last updated September 21, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	Site only	No listings	No listings

5.3.9 Federal Listed Sites with Institutional and/or Engineering Controls (last updated August 30, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	Site only	No listings	No listings

5.3.10 State Listed Facilities with Institutional and/or Engineering Controls (last updated September 13, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – State Identification # (Address)
0	Site only	No listings	No listings

5.3.11 State Listed Hazardous Substance Disposal Sites (last updated September 21, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.12 State Listed Voluntary Cleanup Program Facilities (last updated September 13, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.13 State Listed Brownfield Cleanup Program Facilities (last updated September 21, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.14 State Listed Inactive Hazardous Sites Inventory (last updated September 13, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
1	1.0 mile	1	Matthews, VC Residence – NONCD0002047 (3426 Highway 55)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/ Rationale
1	4,500 – South	West –and away from the Site	No	The listing does not appear to represent a REC to the Site based on the apparent flow of groundwater to the west towards Northeast Creek North Prong and away from the Site and the distance of this facility from the Site.

A copy of the listing is included in Appendix 1.

5.3.15 State Listed Permitted Solid Waste Disposal Facilities (last updated September 28, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – Federal Identification # (Address)
0	0.50 mile	No listings	No listings

5.3.16 Local Inventory of Solid Waste Disposal Locations (last updated May 1, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name (Address)
3	0.50 mile	1	Foss Recycling (1915 Riddle Road)
		2	Sonoco Recycling (4619 Industry Lane)
		3	Planet Aid (2425 South Alston Avenue)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Groundwater Flow – Towards/Away From the Site	REC (Yes/No)	Additional Information/ Rationale
1	1,500 – North	Southeast – Away from the Site	No	The listing does not appear to represent a REC to the Site based on the apparent flow of groundwater to the southeast and away from the Site and the distance of this facility from the Site.
2	2,100 – Southwest	East – Towards Northeast Creek North Prong and away from the Site	No	The listing does not appear to represent a REC to the Site based on the apparent flow of groundwater to the west towards Northeast Creek North Prong and away from the Site and the distance of this facility from the Site.
3	2,600 – Northeast	Southwest – Towards Northeast Creek North Prong and towards the Site	No	The listing does not appear to represent a REC to the Site based on the apparent distance of this facility from the Site.

Copies of the listings are included in Appendix 1.

5.3.17 NCDEQ Storage Tank Facilities (last updated August 10, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Reference Number	Facility Name – UST Identification # (Address)
0	Site and adjoining properties only	No listings	No listings

5.3.18 NCDEQ Active and Closed/Inactive LUST/LAST Listings (last updated August 10, 2017)

Listing Summary

Number of Listed Sites	Search Radius	Listing Number	Facility Name – LUST # (status) (Address)
3 active 0 closed/inactive	Active listings: 0.50 mile Closed/inactive listings: Site and adjoining properties only	1	Hardy Property – LUST #33731 (not listed) (6 Harrington Place)
		2	Bank One Property – LUST #33262 (not listed) (1507 East Cornwallis Road)
		3	Wake EMC – LUST #39438 (active) (South View Road)

Detailed Summary

Reference Number	Approximate Distance from Site (feet) – Direction	Overburden Groundwater Flow Direction	REC (Yes/No)	Additional Information and/or Rationale
1	200 – West	Southeast – Towards the Site	No	According to the listing, an underground leak of petroleum impacted the groundwater at the property. The release appears to have been cleaned up on September 16, 2009; however, the status of the LUST is not indicated. No further pertinent information was obtained from the listing. The listing does not appear to represent a REC to the Site based on the information obtained from the listing and the distance of this facility from the Site.
2	1,800 – Southwest	Southwest – Away from the Site	No	The listing does not appear to represent a REC to the Site based on the apparent flow of groundwater to the southwest and away from the Site and the distance of this facility from the Site.
3	2,300 – East	Southeast – Away from the Site	No	The listing does not appear to represent a REC to the Site based on the apparent flow of groundwater to the southeast and away from the Site and the distance of this facility from the Site.

Copies of the listings are included in Appendix 1.

The EDR Radius report identified seven closed/inactive LUSTs within a 0.5-mile radius of the Site that did not occur on the Site or adjoining/adjacent properties. As LUSTs assigned a closed out status by the NCDEQ typically suggests that the LUST incident has been remedied to the satisfaction of the NCDEQ, these LUST incidences do not appear to represent an environmental concern related to the Site.

5.3.19 Assessment of the Potential for Soil Vapor Intrusion

Vapor intrusion is the entry of volatile organic compounds (VOCs) to indoor air from underlying contamination in soil and groundwater. Based on the results of this assessment, no information was obtained suggesting the presence of a soil vapor intrusion concern at the Site at this time.

5.4 Additional Environmental Record Sources

5.4.1 Review of Previous Environmental Reports

No previous Phase I ESA or Transaction Screen report or other records were obtained or were reasonably ascertainable for review.

5.4.2 Other Records

No other records were obtained or were reasonably ascertainable for review.

5.5 Historical Use Information on the Property and Adjoining Properties

LaBella attempted to review reasonably ascertainable and readily available standard sources of historical information as defined by the ASTM Standard Practice E1527-13 in order to identify all obvious usages of the Site back to the first developed use or 1940, whichever is earlier (i.e., the historical research objective according to ASTM). Uses of the properties adjoining the Site are identified in this report only to the extent that this information is revealed in the course of researching the Site itself and were determined at the discretion of the Environmental Analyst. As such, LaBella reviewed only as many of these sources as necessary to achieve the historical research objective. It should be noted that the lack of availability of reasonably ascertainable and readily available standard ASTM required sources have the potential to affect the findings of this assessment and can impact the ability of the Environmental Professional or Analyst to identify recognized environmental conditions and may result in a data failure (defined in Section 8.2.1 of this report). A data failure may represent a significant data gap. Data failures and data gaps are identified, defined, and evaluated for their significance in Section 8.2 of this report.

Standard historical sources LaBella attempted to review are outlined in the table below.

Section	Historical Source	Date(s)	Source/Comments
5.5.1	Sanborn Fire Insurance Maps	Not available	EDR
5.5.2	Aerial Photographs	1937, 1940, 1950, 1955, 1961, 1964, 1972, 1977, 1980, 1983, 1993, 1998, 2002, 2005, 2006, 2008, 2009, 2010, and 2012	EDR
5.5.3	Municipal Records	Not applicable	City of Durham
5.5.4	Recorded Land Title Records	Not available	Not provided to LaBella for review.
5.5.5	Historical Topographic Maps	1943, 1951, 1973, 1981, 1987, 1993, 2002, and 2013	EDR
5.5.6	Local Street Directories	Dates, Not applicable Or Not consulted	EDR

5.5.1 Sanborn Fire Insurance Maps

Sanborn Fire Insurance maps do not appear to provide coverage to the Site and surrounding properties. As such, Sanborn Fire Insurance maps were not reviewed as part of this Phase I ESA. A copy of the "No Coverage" letter obtained from EDR is included in Appendix 2.

5.5.2 Aerial Photography

The table below outlines observations of the Site and adjacent properties obtained from the review of aerial photographs.

Date	Observations
1937, 1940, 1950, 1955, and 1961	The Site appears to consist primarily of undeveloped forested land. The northern and northwestern portions of the Site appear to be utilized agriculturally. The adjacent properties appear undeveloped.
1964	The Site appears to consist primarily of undeveloped forested land. The northern and northwestern portions of the Site appear to be utilized agriculturally. The northwestern adjacent property appears occupied by a roadway. The northern, eastern, southern, and western adjacent properties appear undeveloped.
1972, 1977, 1980, 1983, and 1993	The Site appears to consist of undeveloped forested land. The northwestern adjacent property appears developed residentially. The northern, eastern, southern, and southwestern adjacent properties appear undeveloped.
1998 and 2002	The central portion of the Site appears developed with the existing cell tower. The Site appears to consist primarily of undeveloped land. The northwestern adjacent property appears developed residentially. The northern and eastern adjacent properties appear developed with religious and commercial structures. The southern and southwestern adjoining properties appear undeveloped.
2005, 2006, 2008, 2009, 2010, and 2012	The central portion of the Site appears developed with the existing cell tower. The Site appears to consist primarily of undeveloped land. The western and southern adjacent properties appear developed residentially. The northern and eastern adjacent properties appear developed with religious and commercial structures.

Copies of the aerial photographs are included in Appendix 3.

5.5.3 Municipal Records

A FOIL request was submitted to the Ms. Ann D. Gray, MMC, NCCMC, City of Durham Clerk, on September 29, 2017 requesting copies of building department, assessment and fire marshal records for the Site. A response received from the City of Durham on September 29, 2017 stated that no records were on file for the Site. In addition, assessment records were obtained from the Durham County website. According to the assessment records, the Site is owned by Vickers Land Company Inc. and consists of approximately 73.441 acres of undeveloped land. Copies of the FOIL request, FOIL response and the assessment records are included in Appendix 6.

5.5.4 Recorded Land Title Records

According to NVR, Inc., title records were not provided, and as such not reviewed as part of this Phase I ESA report. Refer to Section 4.1 for additional details.

5.5.5 *Historical Topographic Maps*

The table below outlines observations of the Site and adjacent properties obtained from the review of aerial photographs.

Date	Observations
1943 and 1951	The Site and adjacent properties appear undeveloped.
1973, 1981, 1987, and 1993	The Site appears undeveloped. The northwestern adjacent property appears developed residentially. The northern, eastern, southern, and southwestern adjacent properties appear undeveloped.
2002	The central portion of the Site appears developed with the existing cell tower. The northwestern adjacent property appears developed residentially. The northern and eastern adjacent properties appear developed. The southern and southwestern adjoining properties appear undeveloped.
2013	Structures are not depicted in the area of the Site.

Copies of the topographic maps are included in Appendix 2.

5.5.6 *Local Street Directories*

Listings identified associated with the adjacent properties in the EDR Digital Archive, infoUSA, the Polk Company, R. L. Polk Company, General Telephone Company of the Southeast and Hill Directory Company, Inc. Street directories are detailed below.

The northern adjacent property appears developed with a church in least 2009. The eastern adjacent properties appear occupied commercially from at least 2002 until at least 2009. The western adjacent properties appear occupied by private individuals from at least 1983 until at least 2009. The Site and the southern adjacent properties are not listed in the directories. Copies of the street directories are included in Appendix 2.

5.5.7 *Summary of Historical Information*

Based on the historical records reviewed, the Site has consisted of undeveloped land since at least 1937; however, an apparent cell tower has been located on the central portion of the Site since at least 1998 until present. Based on the historical use of the Site, there is no apparent REC associated with the Site at this time.

The northern and eastern adjacent properties appear undeveloped from at least 1937 until at least 1993. The northern and eastern adjacent properties appear developed with an apparent church and commercial structure respectively since at least 1998. The southern and western adjacent properties appear undeveloped from at least 1937 until at least 2002 and 1964 respectively. The southern adjacent properties appear developed residentially since at least 2005. Residential structures appear developed on the western adjacent properties since at least 1972 and appeared undeveloped prior to this. Based on the historical use of the adjacent properties, there are no apparent RECs associated with the adjacent properties at this time.

6.0 SITE RECONNAISSANCE

Conducted by: Mr. Richard Rote, Environmental Professional

Date of site visit: October 5, 2017

Representative photographs from the site visit are included in the Figures and Photographs section of this report. In addition, observations discussed in this Section are outlined on Figure 3 in the Figures and Photographs section of this report. Site visit limitations are outlined in Section 2.5 above. Copies of the field notes taken during the site visit are included in Appendix 5.

6.1 Interior Observations

The Site is an undeveloped property. As such, no interior observations were made during the site visit.

6.2 Exterior Observations

6.2.1 Historical Usage

Observed	Additional Information
No	No apparent indicators (i.e., signs, equipment, etc.) were observed on the exterior of the Site at the time of the site visit which would indicate historical usages of the Site.

6.2.2 Hazardous Substances and Petroleum Products in Connection with Identified Usages

Observed	Additional Information
No	No apparent hazardous substances or petroleum products were observed on the exterior of the Site at the time of the site visit.

6.2.3 Storage Tanks

Noted	Additional Information
No	No apparent indications of aboveground or underground storage tanks (e.g., fill ports, vent pipes, access ways) were observed on the exterior of the Site at the time of the Site visit.

6.2.4 Odors

Noted	Additional Information
No	No apparent strong, pungent, or noxious odors were noted on the exterior of the Site at the time of the site visit.

6.2.5 Pools of Liquid(s)

Observed	Additional Information
No	No apparent pools, sumps, or standing water containing liquids likely to be hazardous substances or petroleum products were noted on the exterior of the Site at the time of the site visit.

6.2.6 Unidentified Substance Containers

Noted	Additional Information
Yes	At the time of the site visit, large plastic bags with unknown contents were observed among the solid waste piles along the access road to the cell tower. A couple of the bags were cut open, and their contents appeared to include construction debris. Based on the construction debris observed, it is possible that asbestos-cement siding debris was contained in the unopened bags. Refer to Section 6.2.10 for additional information regarding the solid waste piles at the Site.

6.2.7 Pits, Ponds, or Lagoons

Observed on the Site	Additional Information
No	No apparent pits, ponds, or lagoons were observed at the Site at the time of the site visit.

6.2.8 Stained Soil or Pavement

Observed on the Site	Additional Information
No	No apparent stained soils or pavement were observed at the Site at the time of the site visit.

6.2.9 Stressed Vegetation

Observed on the Site	Additional Information
No	No apparent stressed vegetation was observed at the time of the site visit.

6.2.10 Solid Waste

Observed on the Site	Additional Information
Yes	Several piles of solid waste were observed along access road to the cell tower. The solid waste included general construction debris (i.e., carpet, wood, drywall, roof shingles, etc.) and large plastic bags with unknown contents (refer to Section 6.2.6 for additional information). It should be noted that two of the solid waste piles appeared to contain suspect asbestos-cement siding debris. No apparent leaks, stains, spills or unusual odors were noted in the vicinity of the solid waste piles. As such, there are no apparent RECs associated with the solid waste at the Site at this time; however, it is LaBella's recommendation that the solid waste be properly disposed of at an off-Site location.

6.2.11 Wastewater

Observed on the Site	Additional Information
Yes	Northeast Creek North Prong is located on the southeastern portion of the Site. Storm water at the Site appears to discharge to the creek. No apparent hazardous substances, petroleum products, or evidence of release were noted in the vicinity of the creek at the time of the site visit. As such, there are no apparent RECs associated with storm water discharge at this time.

6.2.12 Wells

Observed on the Site	Additional Information
No	No apparent wells were observed on the exterior of the Site at the time of the site visit or reported to be located on the Site.

6.2.13 Septic Systems

Observed on the Site	Additional Information
No	No apparent indications of on-Site septic systems or cesspools were observed on the Site at the time of the site visit. However, it should be noted that a sanitary sewer easement was observed adjacent to Northeast Creek North Prong on the southeastern portion of the Site.

6.2.14 Polychlorinated Bi-phenyls (PCBs) Containing Equipment

Observed	Additional Information
Yes	An easement for electric lines was observed on the Site with at least one pole-mounted transformer. The pole-mounted transformer did not appear to be leaking at the time of the site visit. Based on the condition of the transformer, there are no apparent RECs related to the presence of the transformer on the Site at this time.

7.0 INTERVIEWS

7.1 Owner

The following individual was interviewed as part of this assessment.

- Mr. Richard Vickers, Owner

According to information obtained through the interview, The Site is currently and has always been vacant, with the exception of a cell tower that is currently located on the Site. In addition, Mr. Vickers stated that the Site was utilized as farmland in the 1950s. According to Mr. Vickers, there is a creek located on the Site. Mr. Vickers stated that the Site will be utilized for residential purposes in the future. The notes from the interview are included in Appendix 5.

7.2 Local Government Officials

A FOIL request was submitted to the Ms. Ann D. Gray, MMC, NCCMC, City of Durham Clerk, on September 29, 2017 requesting copies of building department, assessment and fire marshal records for the Site. A response received from the City of Durham on September 29, 2017 stated that no records were on file for the Site. In addition, assessment information was obtained from the Durham County website. Refer to Section 5.5.3 for additional information. Copies of the FOIL request, FOIL response and the assessment records are included in Appendix 6.

7.3 *Tribal Records*

There do not appear to be any Native American Sovereign Territories on or within one mile of the Site. In accordance with ASTM Standard Practice E1527-13, tribal records will only be reviewed if the subject Site falls on or within one mile of Native American Sovereign Territory. Therefore, tribal government representatives were not contacted as part of this AAI Phase I ESA report.

7.4 *North Carolina Department of Environment Quality*

A FOIL request was submitted to the NCDEQ on September 29, 2017. A letter dated September 29, 2017, stated that the NCDEQ acknowledged LaBella's FOIL request and has initiated a records search. As of the date of this report submission, a complete response has not been received from the NCDEQ. Any pertinent information received as a result of this FOIL request will be included as a Letter of Addendum. A copy of the FOIL request is included in Appendix 6.

7.5 *Durham County Department of Health*

A FOIL request was submitted to the DCDOH on September 29, 2017. As of the date of this report submission, a response has not been received from the DCDOH. Any pertinent information received as a result of this FOIL request will be included as a Letter of Addendum. A copy of the FOIL request is included in Appendix 6.

8.0 FINDINGS, OPINIONS AND CONCLUSIONS

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Practice E 1527 for 2624 Highway 55, City of Durham, Durham County, North Carolina, 27713 (Vickers Site), the Site.

8.1 *Findings*

Any exceptions to, or deletions from, this practice are described in Section 2.5 of this report. Based on the results of this assessment, no apparent RECs have been identified associated with the Site at this time.

8.1.1 *Additional Findings*

Based on the results of this assessment, no apparent Historical Recognized Environmental Conditions, Controlled Recognized Environmental Conditions, or de minimis conditions have been identified associated with the Site at this time.

8.2 *Data Failures and Data Gaps*

8.2.1 *Data Failures*

ASTM 1527-13 defines a data failure as a failure to achieve the historical research objectives of AAI even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. Specifically, the historical research objectives include identifying all obvious uses of the Site from the present, back to the Site's first developed use, or back to 1940, whichever is earlier.

A data failure was not encountered within Scope of Work of this assessment.

8.2.2 Data Gaps

ASTM 1527-13 defines a data gap as a lack of or an inability to obtain information required by this practice despite *good faith* efforts by the *environmental professional* to gather such information. Data gaps may result from incompleteness in any of the activities required by this practice, including, but not limited to site reconnaissance, interviews, data failure, or lack of a User Questionnaire.

A data gap was encountered within the Scope of Work of this assessment. The gap includes the lack of response from the DCDOH and the NCDEQ. The receipt of relevant environmental information as a result of FOIL requests has the ability to change the Findings and Conclusions of this report. However, it should be noted that the review of Standard State and Federal regularity database listings during the course of this Phase I ESA did not identify environmental concerns relative to the Site; therefore, change are not anticipated.

8.3 Opinion of Findings

Based on the findings of this assessment, no further investigation appears warranted at this time.

9.0 DEVIATIONS

No deviations were made to the report, other than the Limitations and Exceptions as stated in Section 2.5.

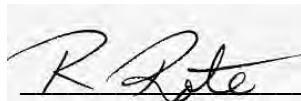

10.0 ADDITIONAL SERVICES

No additional services were provided or agreed upon as part of this assessment.

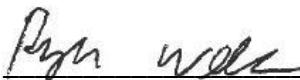

11.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

We declare that, to our knowledge and belief, we meet the definition of Environmental Professional as defined in ASTM Standard Practice E1527-13 and §312.20 of 40 CFR §312. We have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting at the subject property.

We have developed and performed the Scope of Work for this assessment in conformance with the standards, practices, and limitations set forth in ASTM Standard Practice E1527-13.

Rick K. Rote

12.0 QUALIFICATIONS OF ENVIRONMENTAL PROFESSIONALS

Rick Rote, MS, CIH | North Carolina Regional Environmental Manager (Environmental Professional)

Rick is a Certified Industrial Hygienist (CIH) and Regional Environmental Program Manager for North Carolina. He has over 25 years of professional consulting experience for public and private sector clients. Rick is responsible for the coordination and successful completion of Environmental, Health & Safety, and Due Diligence Program services. Working with financial institutions, attorneys and private developers, Rick provides efficient analysis and timely completion of environmental reports required for property transactions. The site assessments include evaluation of environmental liability associated with properties such as warehouses, gas stations, auto repair facilities, manufacturing facilities, farms, commercial properties, and residential. Rick is also responsible for delivery of hazardous materials services for the management of asbestos, lead-based paint, PCB, mercury, and others. Hazardous materials management services include inspections, abatement design and remediation monitoring. As a Certified Industrial Hygienist (CIH), Rick has extensive experience with occupational health and safety studies, OSHA compliance, Indoor Air Quality investigations, mold assessments, community noise, and many other health and safety topics.

Ryan Welch | Environmental Due Diligence Technical Manager

Ryan is the Environmental Due Diligence Technical Manager at Labella who is responsible for the development and training of Phase I Analysts as well as providing efficient analysis and assisting in the completion of environmental reports required for property transactions. The site assessments include evaluation of environmental liability associated with properties such as vacant land, residential units, commercial properties and industrial complexes. Ryan has conducted or supervised over 500 Phase I Environmental Site Assessments and is considered an Environmental Professional per the ASTM definition.

PHASE I ESA TEAM

Whitney McAlpin | Environmental Analyst

Whitney is an Environmental Analyst and is responsible for the preparation of Phase I Environmental Site Assessments. The site assessments include evaluation of environmental liability associated with properties, and Whitney provides efficient analysis and completion of environmental reports for financial institutions, attorneys and private developers.

Bonnie Gambrel | Environmental Analyst

Bonnie is an Environmental Analyst and is responsible for the preparation of Phase I Environmental Site Assessments. The site assessments include evaluation of environmental liability associated with properties, and Bonnie provides efficient analysis and completion of environmental reports for financial institutions, attorneys and private developers.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 12/12/2016 has revealed that there is 1 RCRA-CESQG site within approximately 0.25 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

EXECUTIVE SUMMARY

State- and tribal - equivalent CERCLIS

NC SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environment & Natural Resources' Inactive Hazardous Sites Program.

A review of the NC SHWS list, as provided by EDR, and dated 08/16/2017 has revealed that there is 1 NC SHWS site within approximately 1 mile of the target property.

EXECUTIVE SUMMARY

NC SPILLS 90: Spills 90 includes those spill and release records available exclusively from FirstSearch databases. Typically, they may include chemical, oil and/or hazardous substance spills recorded after 1990. Duplicate records that are already included in EDR incident and release records are not included in Spills 90.

A review of the NC SPILLS 90 list, as provided by EDR, and dated 09/27/2012 has revealed that there is 1 NC SPILLS 90 site within approximately 0.5 miles of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
ALSTON AVENUE SITE Status: CURRENT RECORD Site Id: 92092	2601 ALSTON AVENUE	E 1/4 - 1/2 (0.352 mi.)	G21	29

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/12/2016 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past

EXECUTIVE SUMMARY

sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 2 EDR Hist Auto sites within approximately 0.25 miles of the target property.

EDR RECOVERED GOVERNMENT ARCHIVES

Exclusive Recovered Govt. Archives

NC RGA HWS: The EDR Recovered Government Archive State Hazardous Waste database provides a list of SHWS incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Environment, Health and Natural Resources in North Carolina.

A review of the NC RGA HWS list, as provided by EDR, has revealed that there are 2 NC RGA HWS sites within approximately 1 mile of the target property.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 05/30/2017	Source: EPA
Date Data Arrived at EDR: 06/08/2017	Telephone: N/A
Date Made Active in Reports: 09/15/2017	Last EDR Contact: 07/07/2017
Number of Days to Update: 99	Next Scheduled EDR Contact: 10/16/2017

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 11/07/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 01/05/2017	Telephone: 703-603-8704

	Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017	Source: EPA
Date Data Arrived at EDR: 04/19/2017	Telephone: 800-424-9346

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

East Map:	5948638 SOUTHEAST DURHAM, NC
Version Date:	2013

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

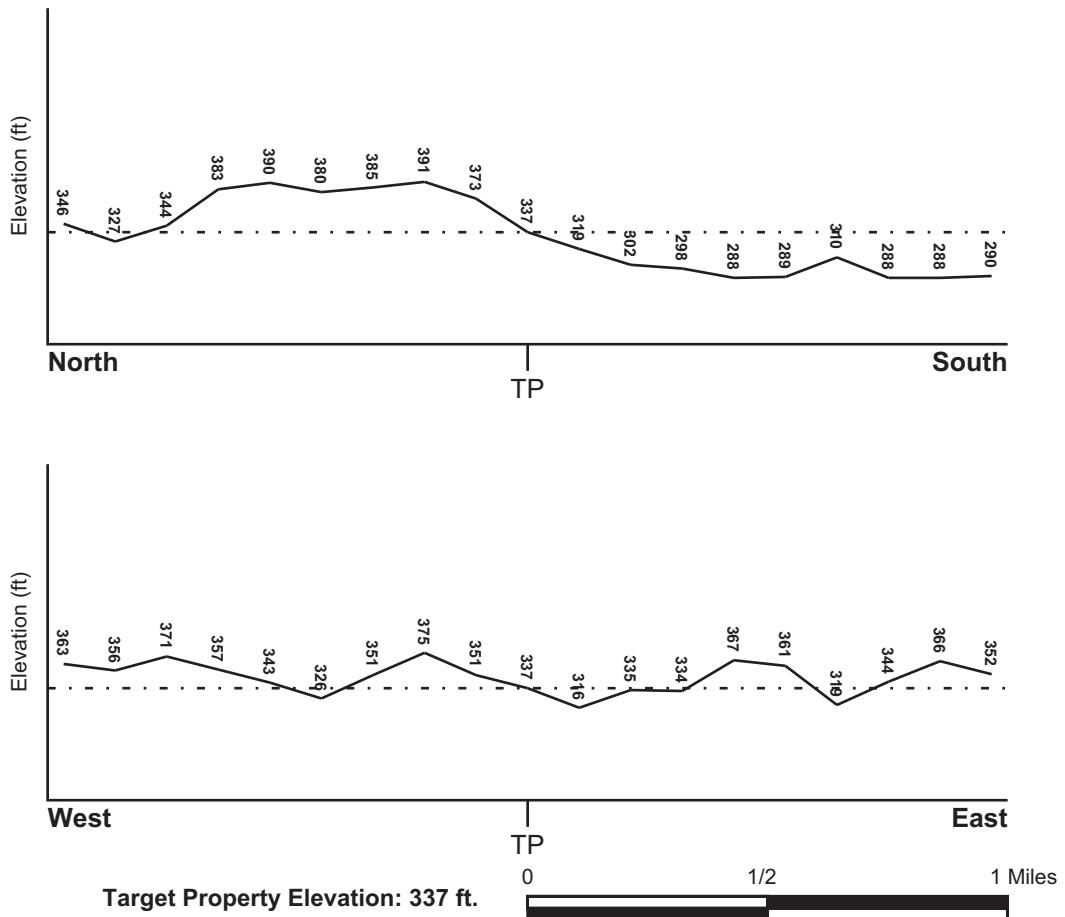

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SSE

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
3720073900J	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
3720082000K	FEMA FIRM Flood data

3720072900K	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
SOUTHWEST DURHAM	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
1	1/2 - 1 Mile North	Not Reported
2	1/2 - 1 Mile SW	Not Reported
4	1/2 - 1 Mile SSE	SW
1G	1/2 - 1 Mile North	Not Reported
2G	1/2 - 1 Mile SW	Not Reported
3G	1/2 - 1 Mile SSE	SW

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

Era: Mesozoic
System: Triassic
Series: Triassic
Code: Tr (decoded above as Era, System & Series)

GEOLOGIC AGE IDENTIFICATION

Category: Stratified Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps. The following information is based on Soil Conservation Service STATSGO data.

Soil Component Name: CREEDMOOR

Soil Surface Texture: sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Not reported

Hydric Status: Soil does not meet the requirements for a hydric soil.

Corrosion Potential - Uncoated Steel: HIGH

Depth to Bedrock Min: > 60 inches

Depth to Bedrock Max: > 60 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information								
	Boundary			Classification				
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	Permeability Rate (in/hr)	Soil Reaction (pH)	
1	0 inches	8 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 6.00 Min: 2.00	Max: 5.50 Min: 3.60	
2	8 inches	19 inches	sandy clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 0.60 Min: 0.20	Max: 5.50 Min: 3.60	
3	19 inches	56 inches	clay	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit 50% or more), Fat Clay.	Max: 0.06 Min: 0.00	Max: 5.50 Min: 3.60	
4	56 inches	77 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Clayey Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 0.06 Min: 0.00	Max: 5.50 Min: 3.60	
5	77 inches	81 inches	unweathered bedrock	Not reported	Not reported	Max: 0.00 Min: 0.00	Max: 0.00 Min: 0.00	

OTHER SOIL TYPES IN AREA

Based on Soil Conservation Service STATSGO data, the following additional subordinant soil types may appear within the general area of target property.

Soil Surface Textures: gravelly - sandy loam
 fine sandy loam
 silt loam

Surficial Soil Types: gravelly - sandy loam
 fine sandy loam
 silt loam

Shallow Soil Types: clay
 silty clay loam
 loam
 clay loam
 silt loam

Deeper Soil Types: weathered bedrock
 sandy loam

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

North Carolina Public Water Supply Wells

Source: Department of Environmental Health

Telephone: 919-715-3243

OTHER STATE DATABASE INFORMATION

NC Natural Areas: Significant Natural Heritage Areas

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

A polygon coverage identifying sites (terrestrial or aquatic) that have particular biodiversity significance.

A site's significance may be due to the presence of rare species, rare or high quality natural communities, or other important ecological features.

NC Game Lands: Wildlife Resources Commission Game Lands

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

All publicly owned game lands managed by the North Carolina Wildlife Resources Commission and as listed in Hunting and Fishing Maps.

NC Natural Heritage Sites: Natural Heritage Element Occurrence Sites

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

A point coverage identifying locations of rare and endangered species, occurrences of exemplary or unique natural ecosystems (terrestrial or aquatic), and special animal habitats (e.g., colonial waterbird nesting sites).

RADON

State Database: NC Radon

Source: Department of Environment & Natural Resources

Telephone: 919-733-4984

Radon Statistical and Non Statistical Data

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United States Geological Survey

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by La Bella Associates, PC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resource Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of city directory data. For each address, the directory lists the name of the corresponding occupant at year intervals.

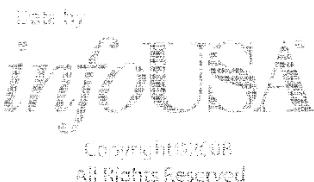

Business directories including city, cross reference and telephone directories were reviewed, if available, approximately five year intervals for the years spanning 1920 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified, gathering information about properties within 1320 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information, Orr & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensor may be a violation of copyright.

Contact: Whitney Mcalpin

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

APPENDIX 4

Site Reconnaissance Worksheet

Site Reconnaissance Worksheet

Project #	2172282
Address	2624 Highway 55, Durham, NC
Date of Site Inspection	10/5/17
# of Structures	None, cell tower and support structures
Usage at Time of Site Inspection	Vacant & undeveloped
Nature of Area	Suburban
Topography (If Sloping – Note Direction)	Generally flat, small creek in southeast corner

Adjacent Properties and Address:

North	Commercial & residential
East	Undeveloped & residential
South	Residential
West	Residential

Site Reconnaissance Worksheet (cont.)

Petroleum Product Storage and/or Usage

Yes _____

No X

(Note: Type, Quantity, Usage, Disposal Receipts)

Hazardous Substances Storage and/or Usage

Yes _____

No X

(Note: Type, Quantity, Usage, Disposal Receipts)

Unidentified Substances or ContainersYes X

No _____

(Note: Type and Quantity) A number of debris piles were observed along the side of the cell tower access road.

In addition to general construction debris (carpet, wood, drywall, roof shingles, etc) the piles contain large plastic bags filled with unknown material. A couple of bags were cut open and more construction debris was observed. Two piles contained asbestos-cement siding debris, which could be contained in some of the unopened bags.

Strong, Pungent, or Noxious Odors

Yes _____

No X

(Note: Type and Source)

Parts Washers

Yes _____

No X

(Note: Type – Self-contained or Not, Location, Waste Disposal Receipts)

Site Reconnaissance Worksheet (cont.)

Pools of Liquid Likely to Contain Hazardous Substances Yes _____ No X

Or Petroleum Products

(Note: Location, Potential Product/Hazardous Substance(s), Source)

Stains or Corrosion Yes _____ No X

(Note: Location, Potential Product/Hazardous Substance(s), Source)

Floor Drains Yes _____ No X

(Note: Location, Discharge Location, Type of Wastewater Discharged to Drain, Associated Oil/Water Separator)

Sumps Yes _____ No X

(Note: Location, Discharge Location, Type of Wastewater Discharged to Sump)

Equipment Potentially Containing Polychlorinated Bi-phenyls Yes X No _____

(Note: Location, Type – Pad/Pole Mounted, PCB-containing, Owner, Condition)

An easement for electric lines was observed with at least one pole-mounted transformer. The lines are in service and appear new and maintained.

Site Reconnaissance Worksheet (cont.)

ElevatorsYes _____ No X

(Note: Location, Hydraulic/Mechanical/Electric, Underground Components, Location of Reservoir)

LiftsYes _____ No X

(Note: Location, Hydraulic/Mechanical/Electric, Underground Components, Location of Reservoir)

Lift ScarsYes _____ No X

(Note: Location, Former Hydraulic/Mechanical/Electric, Underground Components, Location of Reservoir)

Stained SoilYes _____ No X

(Note: Location, Apparent Type of Staining, Source)

Stained PavementYes _____ No X

(Note: Location, Apparent Type of Staining, Source)

Stressed VegetationYes _____ No X

(Note: Location, Source)

Site Reconnaissance Worksheet (cont.)

Evidence of Solid Waste Disposal and/or Filling Yes X No _____

(e.g., mounding, piles, ect.) As described above, general construction debris was observed at
(Note: Location, Contents, Staining, Odors) several locations along the cell tower access road.

Storm Drains Yes _____ No X _____

(Note: Location, Associated with Wastewater Treatment or Disposal, Discharge Location, Staining, Odors)

Ditches Yes _____ No X _____

(Note: Location, Associated with Wastewater Treatment or Disposal, Discharge Location, Staining, Odors)

Underground Injection Well/Dry Well Yes _____ No X _____

(Note: Location, Associated with Wastewater Treatment or Disposal, Type of Wastewater Discharged To)

Site Representative Interview

300 State Street, Suite 201 | Rochester, NY 14614 | p 585.454.6110 | f 585.454.3066 | www.labellapc.com

Project No. _____ Date of Interview: _____ Conducted by: _____
 Address (tax # if undeveloped): 2624 NC 55, Durham, NC P/O TAX# 133810
 Interviewee & Relationship to Site: Richard Vickers How long affiliated with Site: >50 years
 Title/Position/Relationship to Site Owner Owner Representative Former Owner Occupant
 Former Occupant Neighbor Purchaser Seller Real estate agent
 Property Manager Other (explain): Jerry Gambill, RE broker
 Additional Contacts: _____

1. What is the purpose of this assessment? Selling the property Purchasing the property Construction loan
 Re-financing the property Other (explain):
2. Do you have a PROPERTY SURVEY MAP or OTHER MAPPING of the Site available? No Yes Unknown (if Yes, please provide if possible) Sketch - Tract A, Exhibit A
3. Number of building(s): None Total sq. ft. of building(s): _____
 Acreage of Site: _____ Unknown NA

Building #1/location:	Sq. ft.	Construction Date:
Building #2/location:	Sq. ft.	Construction Date:
Building #3/location:	Sq. ft.	Construction Date:
Building #4/location:	Sq. ft.	Construction Date:

4. What is the CURRENT USE(S) of the Site (and/or Site Buildings if applicable) and DATES, if known? Unknown
Vacant, except a cell tower on land owned by Vickers.
5. What are the PAST USE(S) of the Site (and/or Site Buildings if applicable) and DATES of occupancy, if known? Unknown
Woodland
6. Have any buildings been BURNED or DEMOLISHED on the Site? No Yes Unknown
 Explain: _____

Was the Debris: Burned on Site	<input type="checkbox"/> No	<input type="checkbox"/> Yes	<input type="checkbox"/> Unknown	Buried on Site	<input type="checkbox"/> No	<input type="checkbox"/> Yes	<input type="checkbox"/> Unknown
Removed from Site	<input type="checkbox"/> No	<input type="checkbox"/> Yes	<input type="checkbox"/> Unknown				

7. Is the SITE or any ADJOINING PROPERTY CURRENTLY or PREVIOUSLY utilized as any of the following?
 Dry Cleaning Facility No Yes Unknown Site Adjoining Property to the _____
 Dates and Explain: _____

X-ray or Film Developing No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Is there a Metal Recovery System in Place? No Yes Unknown
Explain:

Car Repair Shop: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Paint/Body Shop: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Gasoline Station: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

Industrial Property: No Yes Unknown Site Adjoining Property to the _____
Dates and Explain:

8. What are the CURRENT and PREVIOUS USE(S) of the ADJOINING PROPERTIES?

Direction	Current Use/Occupant	Past Uses/Occupant
North:	Vacant	Vacant
South:	Residential	Woodland
East:	Road	Road
West:	Single family	Single family

9. Is SANITARY WASTE WATER CURRENTLY or was PREVIOUSLY Generated and how is/was it Disposed of?

No Yes Unknown Discharge Point: Public System Private System Unknown
 Other (explain):

If PRIVATE SYSTEM where is the leach field currently located? N/A

Is NON-SANITARY WASTE WATER CURRENTLY or was PREVIOUSLY Generated and how is/was it Disposed of?
 No Yes Unknown Discharge Point: Public System Private System Unknown
 Other (explain):

If PRIVATE SYSTEM where is the discharge point currently located? N/A

Are any of the following CURRENTLY or PREVIOUSLY located at the Site?

SEPTIC TANK: No Yes Unknown Location:

Dates of Usage:

LEACHFIELD: No Yes Unknown Location:

Dates of Usage:

INJECTION WELL: No Yes Unknown Location:

Dates of Usage:

DRY WELL: No Yes Unknown Location:

Dates of Usage:

Are any of the following CURRENTLY or PREVIOUSLY located at the Site?

FLOOR DRAINS: No Yes Unknown Location:

Discharge Point:

TRENCH DRAINS: No Yes Unknown Location:

Discharge Point:

SUMP PUMPS: No Yes Unknown Location:

Discharge Point:

STORM DRAINS: No Yes Unknown Location:

Discharge Point:

OTHER: No Yes Unknown Location:

Discharge Point:

Are any FLOOR DRAINS, TRENCH DRAINS, or SUMPS connected to an OIL/WATER SEPERATOR?

No Yes Unknown NA

Dates of Usage:

Location:

Have any drains been closed in place or sealed over? No Yes Unknown

If YES, date:

Location and explain:

10. Is the Site serviced with PUBLIC or PRIVATE WATER SYSTEMS and DATES of Connection, if known?

Type Date of Connection/Usage

Public Unknown
 Well NA

Are there, or were there ever any OBSERVATION or MONITORING WELLS located on-Site?

No Yes Unknown NA

Location:

Purpose:

Dates of Usage/Installation:

11. Are ANY of the FOLLOWING located ON or ADJACENT TO the SITE? (Choose all that apply):

Type:
 Surface water
 Ponds
 Creek
 Rivers
 Unknown

Location:
Creek

Type:
 Pits
 Lagoons
 Drainage Ditch
 Lakes
 No

Location:

12. What type of heating does this property CURRENTLY have, if any?

None

Choose all that apply and identify the associated building(s) and dates of connection if applicable.

Type Date(s) of Connection/Usage
 Natural Gas
 Propane
 Coal
 Not Heated
 Other (explain)

Type Date(s) of Connection/Usage
 Oil
 Radiant
 Hot Water
 Unknown

If oil: How is/was the oil stored above ground storage tank underground storage tank (see Question 20)
Location:

What type of heating does this property PREVIOUSLY have, if any?

None

Choose all that apply and identify the associated building(s) and dates of connection if applicable.

Type Date(s) of Connection/Usage
 Natural Gas
 Propane
 Coal
 Not Heated
 Other (explain)

Type Date(s) of Connection/Usage
 Oil
 Radiant
 Hot Water
 Unknown

If oil: How is/was the oil stored above ground storage tank underground storage tank (see Question 20)
Location:

13. Who Supplies ELECTRIC SERVICE to the Site?

RG&E National Grid NYSEG Unknown NA
 Other:
Duke Energy

14. What is the nature of SOLID WASTE Generated at the Site and Disposed of from the Site (including hazardous)?

Type of Waste? How is it stored? Who collects the waste and when?

None on site at this time.

15. To the best of your knowledge, have you ever GENERATED or TRANSPORTED HAZARDOUS WASTE from the Site?
 No Yes Unknown (if Yes, please provide Manifests)

Explain:

16. Do you TREAT or DISPOSE of any WASTE MATERIALS on-Site? (i.e., land filling, neutralization, incineration)
 No Yes Unknown

Explain:

17. Has any OTHER ENTITY ever been allowed to DUMP, STORE, DISPOSE, TRANSPORT, BURY, INCINERATE, OR LANDFILL any materials at the Site? No Yes Unknown *With Owner's Knowledge Thereof*

Who?

What?

When?

Location:

18. Has FILL DIRT been brought onto the Site from an UNKNOWN ORIGIN OR CONTAMINATED SITE?

No Yes Unknown

Explain:

19. Are there areas of the Site in which the any of the following were or are located?

Type: Location:

Type:

Unknown No
Location:

Gravel

Debris

Construction Materials

Tree/Brush

Other (explain):

20. Are there CURRENTLY or PREVIOUSLY any ABOVE (AST) or UNDERGROUND (UST) STORAGE TANKS located at the Site?

No Yes Unknown Are they REGISTERED with the NYSDEC? No Yes Unknown

Tank Type (AST/UST) Capacity (Gallons) Product Installation Date Removal/Closure Date

1.

2.

3.

4.

5.

Are there any LEAK DETECTION DEVICES in place? No Yes Unknown
Explain:

Have any TANKS been: Unknown No

Date(s): N/A

REMOVED from the Site

Explain:

Location:

CLOSED in place at the Site

Explain:

Location:

Is Documentation/Closure Reports /Analytical Data Available? No Yes Unknown
(Please provide copy)

Has any CONTAMINATION been identified or REMEDIATION been required at the Site; related to CURRENT OR PRIOR TANKS? No Yes Unknown

Explain:

Has any CONTAMINATION been identified or REMEDIATION been required at a neighboring property; related to CURRENT OR PRIOR TANKS? No Yes Unknown

Explain:

21. What type of CHEMICALS are CURRENTLY or have PREVIOUSLY been STORED or UTILIZED on Site?

Type:	Usage:	Storage Container/Capacity:	Disposal Method:
None			

Are MSDS sheets readily available for these chemicals? No Yes Unknown (if Yes, please provide copies)

22. Have there been any SPILLS, UNPERMITTED DISCHARGES, or RELEASES of HAZARDOUS or CONTAMINATED MATERIALS or PETROLEUM PRODUCTS at or in the vicinity of the Site? No Yes Unknown

What?	When?	Location:

23. Are you AWARE if the SITE is listed as any of the following -Check all that Apply No
(please provide information for 'yes' responses)

Regulatory Listing:

Explain:

- National Priority or Delisted Priority List
- CERLCIS Site
- CERCLIS NFRAP Site
- RCRA Generator Facility
- RCRA Treatment/Storage/Disposal Facility
- State or Local Landfill
- National Response Site
- NYSDEC Spill Site
- Hazardous Waste Disposal Site
- Brownfield or Voluntary Cleanup Site
- Institutional or Environmental Control Site
- Hazardous Substance Site

24. To the best of your knowledge, do you have any FEDERAL, STATE, or LOCAL PERMITS for the following?

None

Air Emissions

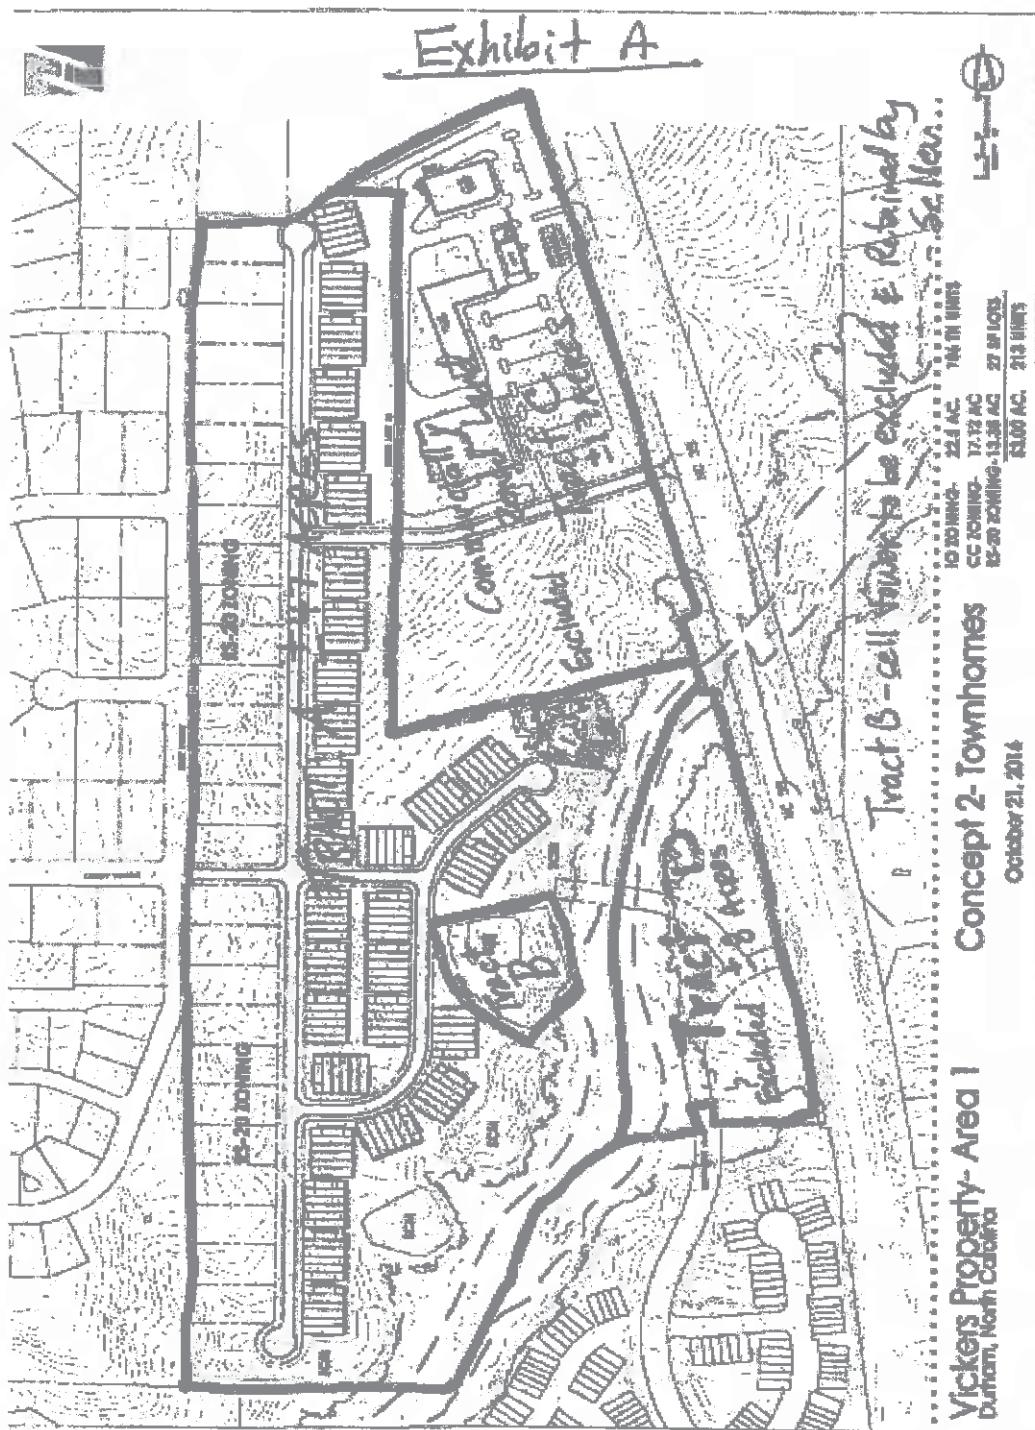

SPDES (waste water discharge)

Explain:

25. Has the Site ever been the subject of an ENFORCEMENT ACTION by any FEDERAL, STATE, or LOCAL agency regarding ENVIRONMENTAL ISSUES? No Yes Unknown
Explain and provide DATES and any Documentation:
26. Is the Site presently under any FEDERAL, STATE, or LOCAL CONSENT ORDERS, DECREES, or CAUSE of ACTION? No Yes Unknown
Explain and provide DATES and any Documentation:
27. Are you aware of any ENVIRONMENTAL LIENS on the Site? No Yes Unknown
Explain:
28. Are you aware of any LAND USE or ACTIVITY LIMITATIONS that are in place on the Site or have been FILED or RECORDED in a registry? No Yes Unknown
Explain: **ZONING**
29. Are you aware of any KNOWLEDGE or INDICATORS related to the Site that point to the PRESENCE or LIKELY PRESENCE of CONTAMINATION? No Yes Unknown
Explain:
30. Are you aware if the PURCHASE PRICE of this Site reasonably reflects the fair market value of the property? No Yes Unknown N/A (Site is not being sold at this time)
Explain:
31. Has there ever been PREVIOUS Phase I Environmental Site Assessments or environmental audits performed for the Site? No Yes Unknown (if Yes, please provide copies if possible)
If yes, by Whom? Date?
Concerns identified: No Yes Unknown
Explain:
32. Is the ABSTRACT OF TITLE for the Site available? No Yes Unknown
(If Yes, please provide if possible or provide name and contact information for attorney that may have report)
33. Do you have any additional information or specialized knowledge or experience regarding the Site? No Yes Unknown
Explain:
34. Do you have any information related to the future use of the Site? No Yes Unknown
Explain: **Residential**
35. Has the Site ever been utilized agriculturally? No Yes Unknown
If so, when?:
Explain: **Woodland; farmed in 1950's**

M. McAlpin,

The property corresponding to your Freedom of Information Act request, 2624 NC 55 Highway (PID 133810, PIN 0738-01-29-2855), shows on Durham GIS to be vacant, undeveloped land. A check of Durham City-County Planning and Inspections Department records finds no record of zoning violations, or of any permits issued or applied for on this property.

Contact the Fire Dept. at 919-560-4233 (city) or firemarshal@dconc.gov (county) for information regarding **hazardous material spills and underground storage tanks**, fire and fire inspection reports.

This office does not keep records of open code violations. Please check with Neighborhood Improvement Services at 919-560-1647 or <https://durhamnc.gov/570/Neighborhood-Improvement-Services>

Tax information is available at <http://property.spatialest.com/nc/durham/> .

Additional environmental information may be found at <http://deq.nc.gov/about/divisions/waste-management/waste-management-rules-data/waste-management-gis-maps>

Subject: RE: FOIL Request

Ann,

I was not able to find any utility, sidewalk, or street assessment records for this property. However, I believe what is being requested are the Tax Assessment records, based on the fact that "property records cards" are mentioned.

I've provided a link to the County Tax Administration's searchable records webpage, where the property information can be viewed. The Parcel ID for this property is 133810.

http://property.spatialest.com/nc/durham/search/133810_srcterm:

Please let me know if there are additional questions for me.

Public Records Information Request – Regional Office Routing Form

This form is to assist in the identification of public records in the regional office for a specific project, permit, property and/or facility. After circulation of this routing form, the requestor will be notified if records exist and provided the appropriate division(s) contact information. Please review the following pdf file for more information on [North Carolina state government's Public Records Request Policy](#).

Note: Use of this form is optional. Any format for a public records request is acceptable. However, responses by agencies are limited by the level of detail and quality of information provided by the requestor. Additionally, information volunteered by the requestor may help fill the request more efficiently.

Requestor Information:

Name (Vitulano, Alexandra): Date: (7/26/2016)

Address (300 State Street, Suite 201): Click here to enter text.

City: Rochester State: NY Zip: 14614

Daytime Telephone: 585-295-6247 Email: avitulano@labellapc.com

Information Requested:

Please note that inclusion of current and historic site information will better facilitate our records search.

Identify the documents, records or information you are seeking: Please see box on bottom of form.

Physical location of subject site (include city and county): 2624 Highway, Durham

Property Owner(s): Vickers Land Company LLC

Project Name: Vickers Site

Facility Name: Click here to enter text.

Project ID Number/Permit Number/Facility ID Number (include with which agency this coincides):

2172282

Provide any unique identifiers which exist on the property (e.g. wells, ponds, dams, UST's, current and previous land uses, etc.): Click here to enter text.

Provide below any additional information you feel may be helpful in the records search (e.g. map, PIN, Latitude & Longitude, etc.):

Click here to enter text.

Email or fax the completed form to the appropriate regional Environmental Assistance Coordinator.

Fees may be charged for copies of records. Review the NC DENR "Policy on Charges and Payments for Public Records," by visiting the following link: portal.ncdenr.org/web/guest/policy-on-charges-and-payments-for-public-records.

More information about file access procedures in the N.C. Department of Environment and Natural Resources can be found online at <http://portal.ncdenr.org/web/deao/faq#fileaccess>. If you make an appointment to review files, be sure to inquire about copying procedures, directions to buildings, parking and visitor passes.

Disclaimer: DENR staff will fulfill this request in accordance with the requirements of the North Carolina Public Records Act ("the Act"), N.C. Gen. Stat. § 132-1 *et seq.*, based on the information received from the requester. While the Act addresses the availability of records, the Act does not address the accuracy of those records. Accordingly, the production of records pursuant to the Act does not insure that the records (many of which have been previously submitted to DENR from outside sources) are accurate, complete or current with regard to all environmental issues at a property. The scope of the search for records is determined by the data provided by the requester; limited or incomplete data may constrain and limit the discovery and production of available records. To obtain the best information available, please provide as much specific information as possible about the topic, location and type of data being requested.

Records Requested:

Environmental enforcement, environmental permits, environmental remediation, hazardous materials, solid materials, land use restrictions including and/or engineering controls, law enforcement/ investigation, legal, water, and air, spills/ PBS, BCP ,and VCP programs.

Subject: Re: Public Request Form
Attachments: Rev DWM Procedure for Records Access Feb 2017 rev..docx

Whitney,

Thank you for your request for information regarding the following location:

2624 Highway 55, Durham, NC

In that regard, please reference the first page of the Regional Office Routing Form for information pertaining to accessing files in the Central Offices. In addition, I am providing a document prepared by Mark Powers, UST Section Supervisor, which provides information on the UST records access Procedure.

Thank you,

David

User Interview

1520 South Boulevard, Suite 210 | Charlotte, NC 28203 | p 704.376.6423 | f 704.332.6177 | www.labellapc.com

USER QUESTIONNAIRE

Date: 10/9/17

Site Name / Address: 2624 NC 55 HWY, Durham, NC

Site Contact (to arrange Site visit / conduct Site owner interview) Name: Jerry Gambill (broker)
 Phone Number: (919) 417-7497 Email Address: jgambill@pickett-sprouse.com

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the “*Brownfields Amendments*”), the *user* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. These inquiries must also be conducted by EPA Brownfield Assessment and Characterization grantees. The *user* should provide the following information to the *Environmental Professional*. Failure to conduct these inquiries could result in a determination that “*all appropriate inquiries*” is not complete.

User (Print Name): NVR, Inc by Britt Spivey
 Title: Land General Manager
 Signature: Britt Spivey

Information regarding these questions was obtained from the following parties (if applicable): Britt Spivey

Purpose of this Assessment: Selling the *property* Purchasing the *property* Construction loan
 Re-financing the *property* Other (explain): _____

1. Title Records

Land title records (or judicial records where appropriate, see Note 1 below) are filed under federal, tribal, state or local law and should be reviewed to identify environmental liens or activity and use limitations (AULs), if any, that are currently recorded or filed against the *property*. Will you provide land title records for review? No Yes (If yes, please provide.) Unknown

Note 1 – In certain jurisdictions, federal, tribal, state, or local statutes, or regulations specify that environmental liens and AULs be filed in judicial records rather than in land title records. In such cases, judicial records must be searched for environmental liens and AULs.

2. Environmental liens that are filed or recorded against the *property* (40 CFR 312.25)

Did a search of *recorded land title records* (or judicial records where appropriate, see Note 1 above) identify any environmental liens filed or recorded against the *property* under federal, tribal, state or local law?

No Yes Unknown

Based on review of readily available information: _____

3. Activity and land use restrictions (AULs) that are in place on the *property* or that have been filed or recorded against the *property* (40 CFR 312.26(a)(1)(v) and (vi))

Did a search of *recorded land title records* (or judicial records where appropriate, see Note 1 above) identify any AULs, such as *engineering controls*, land use restrictions, or *institutional controls* that are in place at the *property* and/or have been filed or recorded against the *property* under federal, tribal, state, or local law?

No Yes Unknown

Based on review of readily available information: Property zoned R-20, CC and OT

4. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)**

Do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or and *adjoining property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No Yes

Based on review of readily available information:

5. **Relationship of the purchase price to the fair market value of the *property* if it were not contaminated (40 CFR 312.29)**

Does the purchase price being paid for this *property* reasonably reflect the fair market value of the *property*?

No Yes Unknown N/A- there is no transfer of ownership

If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the *property*?

No Yes Unknown

Based on review of readily available information:

6. **Commonly known or reasonably ascertainable information about the *property* (40 CFR 312.30)**

Are you aware of any commonly known or *reasonably ascertainable* information about the *property* that could help the *Environmental Professional* to identify conditions indicative of releases or threatened releases? For example:

(a) Do you know of the past uses of the *property*?

No Yes

Based on review of readily available information:

(b) Do you know of specific chemicals that are present or once were present at the *property*?

No Yes

Based on review of readily available information:

(c) Do you know of spills or other chemical releases that have taken place at the *property*?

No Yes

Based on review of readily available information:

(d) Do you know of any environmental cleanups that have taken place at the *property*?

No Yes

Based on review of readily available information:

7. **The degree of obviousness of the presence or likely presence of contamination at the *property*, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)**

Based on your knowledge and experience related to the *property*, are there any *obvious* indicators that point to the presence or likely presence of releases at that *property*?

No Yes

Based on review of readily available information:

Please provide attachments if necessary to explain any answers to the above questions.

Environmental Due Diligence Contact Information Request Form

Please complete the form below to provide information required to contact the Phase I Client and current or past owners or others knowledgeable of past uses of the Site. This form can be submitted electronically via fax or email to:

Fax: 704-332-6177

Email: rrote@labellapc.com

NVR Client Contact Information

Contact Name:	Britt Spivey
Street Address:	5734 Trinity Rd, Ste 200
